Structure	OEIC sub-fund
Year end	31 July
B SEDOL code	B7MHLC6
B ISIN code	GB00B7MHLC66

Name change

Please note, prior to 27th January 2025, this fund was called the EF Brompton Global Opportunities Fund.

Fund manager's commentary

Global bonds and equities fell 1.90% and 1.28% respectively in sterling as oil prices rose 20.97% in response to renewed Middle East conflict, triggering fears that interest rates will need to rise to combat resurgent inflation. US stocks fell 1.44% in sterling but the EF Brompton Global Adventurous Fund's holding in the iShares S&P 500 Equal Weight exchange-traded fund (ETF) fell only 0.41% because of its low technology weighting during a month in which global technology stocks fell 5.77% on concerns that investments in artificial intelligence datacentres may fail to deliver economic returns. Some technology hardware suppliers were caught in the sell-off and the iShares MSCI Global Semiconductors ETF fell 21.89%. Equities in Asia excluding Japan and emerging markets also underperformed, down 4.51% and 4.36% respectively in sterling. Within the portfolio, Barings Korea and Man Asia (ex-Japan) Equity, which have high allocations to hardware suppliers, fell 22.68% and 5.47% respectively but Prusik Asian Equity Income outperformed, up 6.05% because of its bias towards value-oriented stocks. Indian stocks rose 0.38% in sterling and Chikara Indian Subcontinent, which has a bias towards domestic, consumer-oriented stocks, outperformed, up 2.32%. UK stocks also outperformed, up 3.86%, and smaller companies did better, up 5.79%, but UK government bonds fell 1.67% on fears about government spending. Within the portfolio, Man Income and Artemis UK Special Situations gained 4.19% and 3.87% respectively because of their bias towards small and medium-sized smaller companies. The EF Brompton Global Adventurous Fund fell 0.79% in July while the sector fell 0.70%.

BROMPTON

ASSET MANAGEMENT

EF Brompton Global Adventurous Fund (continued)

An EF Brompton Multi-Manager OEIC sub-fund

Investment policy

In order to achieve its objective, the Fund will adopt an adventurous strategy. To reflect this strategy, the investment manager has the discretion to invest up to 100% of the Fund's net asset value in equities, with a minimum equity exposure of 70%, providing exposure to global equity markets.

The Fund may invest in other asset classes, such as cash, fixed income, alternatives and property.

The Fund will typically invest a minimum of 80% of its net asset value in collective investment schemes, exchange traded funds and unregulated collective investment schemes. The Fund may also invest in investment trusts (and similar instruments), other transferable securities, money-market instruments, fixed income instruments, deposits and foreign exchange contracts. Investments will not be confined by industrial, economic or geographical sector.

The Fund may also hold, on a temporary basis, all or part of its assets in cash or other ancillary liquid assets.

The Fund may utilise derivatives for the purposes of efficient portfolio management (typically hedging, including investing in hedged share classes, which attempts to mitigate against falls in the value of the Fund's assets and the effects of changes in currency exchange rates against the Fund's base currency, which is pounds sterling).

The Fund's benchmark is IA Flexible Investment. This represents a comparator benchmark because the Fund's performance can be compared to funds which also sit within this industry sector.

Performance

Percentage growth, 31 July 2016 to 31 July 2026

EF Brompton Global Adventurous B Acc v IA Flexible Investment
