Year end	31 July
B SEDOL code	B7KZXR1
B ISIN code	GB00B7KZXR16
I SEDOL code	B54WNN0
I ISIN code	GB00B54WNN09

†† The historic yield on the B share class reflects distributions paid or declared over the past 12 months as a percentage of the share price at the date of this document. It does not include any initial charge and investors may be subject to tax on distributions.

All of the fund's expenses are charged to capital. This has had the effect of increasing the distributions paid on an annualised basis by approximately 0.90 percentage points on the B share class and reducing the capital performance by an equivalent amount.

Fund manager's commentary

Global equities and bonds fell 4.09% and 1.78% respectively in local currencies but fell 2.10% and gained 0.25% respectively in sterling as the pound fell 2.03% against the dollar. The prospect of higher, more persistent US and UK inflation prompted more hawkish guidance from the Federal Reserve and Bank of England. UK government bonds and sterling investment-grade corporate bonds fell 3.86% and 2.30% respectively although sterling high-yield bonds rose 0.05%. The EF Brompton Global Income Fund's bond holdings benefited from a bias towards shorter-duration and inflation-linked bonds. Royal London Short Duration Global High Yield Bond gained 0.10% while New Capital Wealthy Nations Bond and the sterling-hedged Legal & General Global Inflation Linked Bond holding fell 1.17% and 0.86% respectively. Sterling-weakness contributed to outperformance by UK stocks, which were unchanged. Of the five UK equity investments, Aberforth Split Level Income Trust and Chelverton UK Equity Income were weakest, down 5.12% and 2.82% respectively, but Majedie Investments outperformed, rising 0.22%. In Europe excluding the UK, where equities fell 3.51% in sterling, BlackRock Continental European Income, lagged, down 5.00%. Japanese equities outperformed, up 4.88% in sterling following Yoshihide Suga's resignation as premier. T Rowe Price Japanese Equity lagged, rising 2.96%. A Lindsell Train Japanese Equity holding was added. BlackRock World Mining was the portfolio's worst performer, down 7.42%. The EF Brompton Global Income Fund fell 1.63%† in September while the sector fell 1.23%. At 30 September, the historic yield was 2.70%††. Future income will be adversely affected by Covid-19-related dividend cuts.

Investment policy

The Fund will typically invest a minimum of 80% of its net asset value in collective investment schemes, exchange traded funds and unregulated collective investment schemes.

The Fund may also invest in investment trusts (and similar instruments), other transferable securities, money-market instruments, fixed income instruments, deposits and foreign exchange contracts.

It is expected that exposure to equity markets will typically range from a minimum of 20% to a maximum of 60% of the total Fund, with the aim of achieving the Fund's objective. However, investments will not be confined by industrial, economic or geographical sector.

The Fund may also hold, on a temporary basis, all or part of its assets in cash or other ancillary liquid assets.

The Fund may utilise derivatives for the purposes of efficient portfolio management (typically hedging, including investing in hedged share classes, which attempts to mitigate against falls in the value of the Fund's assets and the effects of changes in currency exchange rates against the Fund's base currency, which is pounds sterling).

The Fund's benchmark is IA Mixed Investment 20-60% Shares. This represents a comparator benchmark because the Fund's performance can be compared to funds which also sit within this industry sector.

1st quartile means the fund is ranked in the top 25% of funds in its sector

Important information

For full details of the fund and its risks please refer to the prospectus or Key Investor Information and Supplementary Information Document, which can be found on the Brompton Asset Management website, www.bromptonam.com. The value of assets and income generated from them may fall as well as rise. Investors may not get a steady income flow and, on disposal, may not receive all their capital back.

Past performance is not an indicator of future performance.
