I ISIN code	<b>GB00B6STGZ75</b>

### Fund manager's commentary

The Federal Reserve and Bank of England raised their official interest rates by a quarter percentage point and half a point respectively. Global equities and bonds returned 4.74% and 0.92% respectively in sterling on hopes that peak interest rates might be close. Among the EF Brompton Global Opportunities Fund's global equity holdings, Polar Capital Global Technology and the iShares Gold Producers exchange-traded fund (ETF) gained 10.20% and 9.07% respectively but three more defensive holdings, Guinness Global Equity Income, Polar Capital Global Insurance and Baillie Gifford Global Income Growth, fell 0.81% and gained 2.28% and 3.11% respectively. The dollar fell 2.29% and 1.44% respectively against sterling and the yen. This proved a tailwind for equities in Asia excluding Japan and emerging markets, up 5.74% and 5.43% respectively in sterling. Within the portfolio, Baillie Gifford Pacific and Redwheel Global Emerging Markets gained 7.80% and 7.19% respectively but Goldman Sachs India Equity fell 3.19% as Indian equities declined. UK equities rose 4.38% and small companies outperformed, up 6.61%. Within the portfolio, Man GLG Income gained 5.85% but Liontrust UK Special Situations rose just 2.41%. Chelverton UK Equity Growth and Aberforth UK Small Companies lagged small stocks generally, up 3.04% and 5.07% respectively. Within the bond allocation, the sterling-hedged holdings in the iShares \$ Treasury Bond 7-10 Years ETF and Vanguard Global Bond gained 3.36% and 2.55% respectively. With bullion strong, the iShares Physical Gold exchange-traded commodity rose 3.71%. The EF Brompton Global Opportunities Fund rose 3.67%† in January while the sector rose 3.46%.

### Asset allocation

### Geographic allocation

Please see overleaf for performance and other important information

## Investment policy

The Fund will typically invest a minimum of 80% of its net asset value in collective investment schemes, exchange traded funds and unregulated collective investment schemes.

The Fund may also invest in investment trusts (and similar instruments), other transferable securities, money-market instruments, fixed income instruments, deposits and foreign exchange contracts. Investments will not be confined by industrial, economic or geographical sector.

Although the Fund will usually be invested across a range of asset classes, in certain market conditions, the Investment Manager may decide to hold up to 100% in equity markets. This would be for a limited period and only in exceptional circumstances.

The Fund may also hold, on a temporary basis, all or part of its assets in cash or other ancillary liquid assets.

The Fund may utilise derivatives for the purposes of efficient portfolio management (typically hedging, including investing in hedged share classes, which attempts to mitigate against falls in the value of the Fund's assets and the effects of changes in currency exchange rates against the Fund's base currency, which is pounds sterling).

The Fund's benchmark is IA Flexible Investment. This represents a comparator benchmark because the Fund's performance can be compared to funds which also sit within this industry sector.

1st quartile means the fund is ranked in the top 25% of funds in its sector

### Important information

For full details of the fund and its risks please refer to the prospectus or Key Investor Information and Supplementary Information Document, which can be found on the Brompton Asset Management website, [www.bromptonam.com](http://www.bromptonam.com). The value of assets and income generated from them may fall as well as rise. Investors may not get a steady income flow and, on disposal, may not receive all their capital back.
