Fund manager's commentary

Global equities fell 5.45% in sterling and volatility increased as China's currency depreciation raised fears that further currency falls could prove deflationary. Emerging markets were worst affected as the renminbi's fall compounded concerns of a Chinese economic growth slowdown and capital flight engendered by a stronger dollar. Equities in Asia excluding Japan and emerging markets fell 8.47% and 7.68% respectively in sterling. Chinese equities fared worse, falling 13.21% in sterling. Schroder Small Cap Discovery, the FP Brompton Global Balanced Fund's remaining emerging market equity investment, proved relatively resilient, however, falling 6.99%. UK equities fell 6.07%, driven down by the London market's relatively-high concentration of oil and mining stocks. UK equity funds accounted for 20.95% of the portfolio at the month end. All these investments outperformed as a result of their UK small and medium-sized company bias. Chelverton UK Equity Income and GLG Undervalued Assets proved most defensive, falling 1.33% and 3.47% respectively. US economic data remained robust and the dollar strengthened 1.46% against sterling. Bonds offered little protection as a US interest rate could coincide with weaker global growth. Gilts rose just 0.26% and sterling corporate bonds fell 1.20%. Dollar strength, however, buoyed the iShares Treasury Bond 1-3 year exchange-traded fund, which rose 1.90%. In real estate, Henderson UK Property gained 0.53%. The sterling-hedged Schroder European Alpha Income fund was the worst performer outside emerging markets, with sterling's weakness contributing to its 6.80% fall. The FP Brompton Global Balanced Fund fell 2.12%† in August while the sector fell 2.70%.
