Fund manager's commentary

Global equities fell 0.32% in sterling terms in July on concerns that strong US economic data would encourage the Federal Reserve to tighten monetary policy more rapidly than anticipated. The US's annualised second-quarter growth rate was 4%. The destruction of a Malaysian Airlines plane over Ukraine re-ignited smouldering political tensions, leading to increased volatility and risk aversion. Europe ex-UK equities underperformed, falling 3.74% in sterling. This reflected Germany's reliance on Russian gas imports and fears of tougher trade sanctions. The European Central Bank kept interest rates on hold and took no other action to alleviate weak eurozone inflation, which declined to 0.4%. Within the FP Brompton Global Balanced Fund, Fidelity Germany did worst, falling 7.27%. This fund remains vulnerable to any escalation in the Ukraine crisis but should benefit longer term because eurozone monetary policy should be supportive long after US and UK interest rates rise. In China, a leading indicator showed manufacturing prospects had brightened and policy-makers intervened to improve smaller companies' access to capital. Emerging market and Asia ex-Japan equities gained 3.32% and 4.88% respectively in sterling. As a result, Schroder SmallCap Discovery rose 4.30%. Mining equities also benefited. The Blackrock World Mining investment trust did best, rising 7.17%, while Blackrock Gold & General, rose 3.69%, benefitting from a stronger performance from gold equities. The gold price rose 4.49% in sterling over the year to July responding to increased demand for "safe-haven" assets. The FP Brompton Global Balanced Fund rose 0.52% in July against 0.21% for the sector.
