### Fund manager's commentary

Global stockmarkets recovered in November after October's dip, gaining 3.91% in sterling. US economic data continued to exceed expectations, leaving the dollar 2.16% higher against sterling. US equities rose 4.91% but Europe ex-UK equities did even better, rising 5.80% in sterling. The European Central Bank reiterated its determination that quantitative easing would be deployed if necessary. Better-than-expected economic survey data in Germany spurred German equities higher. All the FP Brompton Global Balanced Fund's investments in Europe ex-UK equity funds rose, with Fidelity Germany, up 8.20%, doing best. Japanese equities rose 2.05% in sterling as investors reflected on October's announcement of more quantitative easing, leaving them unshaken by the news that third-quarter output had fallen. The prime minister, Shinzō Abe, deferred the timing of his planned consumption tax increase and called an election in the hope of extending his premiership. The dollar-hedged GLG Japan fund was the portfolio's best performer, rising 9.06% in sterling. In the commodity markets, oil fell 16.04% in sterling as Saudi Arabia decided to maintain supply. Cheaper energy is a major potential stimulus but could also prove disinflationary. UK gilts and sterling corporate bonds gained 3.08% and 2.26% respectively as the prospect of the first UK interest rate rise for many years receded. Gold rose 2.42% in sterling helped by India's announcement of an end to import restrictions. Fundsmith Equity, a portfolio addition during November, had gained 2.04% by the month end. The FP Brompton Global Balanced Fund gained 2.54% in November while the sector gained 2.40%.
