### Investment policy

The Fund will principally invest in collective investment schemes, exchange-traded funds and unregulated collective investment schemes (which include limited partnerships). The Fund may also invest in investment trusts (and similar instruments) and other transferable securities, money-market instruments, fixed income instruments, deposits and foreign exchange contracts. Investments will not be confined to any particular sector.

The Fund may hold, on a temporary basis, all or part of its assets in cash or other ancillary liquid assets. The Fund may utilise derivatives for the purposes of efficient portfolio management.

### Fund manager's commentary

Global equities fell 0.32% in sterling terms in July on concerns that strong US economic data would encourage the Federal Reserve to tighten monetary policy more rapidly than anticipated. The US's annualised second-quarter growth rate was 4%. The destruction of a Malaysian Airlines plane over Ukraine re-ignited smouldering political tensions, leading to increased volatility and risk aversion. Europe ex-UK equities underperformed, falling 3.74% in sterling. This reflected Germany's reliance on Russian gas imports and fears of tougher trade sanctions. The European Central Bank kept interest rates on hold and took no other action to alleviate weak eurozone inflation, which declined to 0.4%. Within the FP Brompton Global Growth Fund, Fidelity Germany did worst, falling 7.27%. This fund remains vulnerable to any escalation in the Ukraine crisis but should benefit longer term because eurozone monetary policy should be supportive long after US and UK interest rates rise. In China, a leading indicator showed manufacturing prospects had brightened and policy-makers intervened to improve smaller companies' access to capital. Emerging market and Asia ex-Japan equities gained 3.32% and 4.88% respectively in sterling. As a result, Schroder SmallCap Discovery rose 4.30%. Mining equities also benefited. The Blackrock World Mining investment trust did best, rising 7.17%, while Blackrock Gold and General, rose 3.69%, benefitting from a stronger performance from gold equities. The gold price rose 4.49% in sterling over the year to July responding to increased demand for "safe-haven" assets. The FP Brompton Global Growth Fund rose 0.56% in July against 0.17% for the sector.
