† The historic yield reflects distributions paid or declared over the past 12 months as a percentage of the share price at the date of this document. It does not include any initial charge and investors may be subject to tax on distributions.

All of the fund's expenses are charged to capital. This has had the effect of increasing the distributions paid on an annualised basis by approximately 0.90 percentage points on the B share class and reducing the capital performance by an equivalent amount.

Fund manager's commentary

Sterling strengthened 1.90% against the dollar and 1.57% against the euro after Mark Carney, the Bank of England governor, said the first UK base rate rise since the credit crisis could happen sooner than investors expected. UK equities fell 1.28%, underperforming global equities, which declined 0.10% in sterling. US equities gained 0.13% in sterling as unemployment fell to 6.1%. Investors shrugged off confirmation that severe winter weather had caused the US economy to show a 2.9% annualised decline during the first quarter of 2014. Japanese manufacturing stabilised and business confidence and retail spending recovered following Japan's consumption tax increase, causing Tokyo equities to rise 3.72% in sterling. Within the FP Brompton Global Income Fund, Morant Wright Nippon Yield was the best performer, gaining 5.12% in sterling. China's purchasing managers' index, a lead indicator for economic activity, edged up to a seven-month high and the People's Bank announced small-scale, targeted measures to improve liquidity. The purchase of the Schroder Oriental Income investment trust introduced exposure to higher-yielding Asian equities. F&C Property Growth & Income gained 1.64% as UK commercial property proved more resilient than gilts and sterling corporate bonds, which fell 0.53% and 0.34% respectively. The iShares UK Property exchange-traded fund was profitably sold in favour of the TR Property investment trust, which has significant holdings in eurozone property equities as well as direct investments in UK commercial property assets. The Global Income Fund fell 0.16% in June compared to 0.35% for the sector. At 30 June, the projected yield was 2.70%.
