### Fund manager's commentary

Global equities recovered 4.21% in sterling in March as the Federal Reserve committed to move "cautiously" on interest rates given elevated international risks to the US economy. The dollar fell 3.04% against sterling despite Brexit fears weighing on the pound. Falling US oil output contributed to a 5.28% oil price recovery in sterling. Evidence that the twin headwinds dogging emerging markets – dollar strength and weak commodity prices – had abated led to a sharp rally in Asia ex-Japan and emerging market equities, up 7.86% and 9.81% respectively in sterling. The FP Brompton Global Opportunities Fund's emerging market equity allocation rose in early 2016 to end the first quarter at 19.32%. The iShares MSCI Emerging Markets Minimum Volatility exchange-traded fund (ETF) did best during March, gaining 6.49%. Active fund managers generally struggled to keep pace in response to the reversal in market trends. Schroder SmallCap Discovery and Fundsmith Emerging Equities underperformed, rising 2.74% and 3.98% respectively, but their experienced managers should keep pace in the longer term. Investment in emerging markets increased through the purchase of the iShares Emerging Markets Dividend ETF. The addition of the SPDR Barclays Emerging Markets Local Bond ETF provides exposure to the nascent recovery in emerging economy currencies. Falling volatility and increased risk appetite led to corporate bonds outperforming developed economy government bonds. Gilts fell marginally but sterling corporate bonds rose 3.08%. The iShares Global Inflation-linked bond ETF rose 0.46% in sterling. The FP Brompton Global Opportunities Fund gained 2.40%† in March while the sector rose 2.48%.

## FP Brompton Global Opportunities Fund (continued)

An FP Brompton Multi-Manager OEIC sub-fund

### Investment policy

The Fund will principally invest in collective investment schemes, exchange-traded funds and unregulated collective investment schemes (which include limited partnerships).

The Fund may also invest in investment trusts (and similar instruments) and other transferable securities, money-market instruments, fixed income instruments, deposits and foreign exchange contracts. Investments will not be confined to any particular sector.

Although the Fund will usually be invested across a range of asset classes, in certain market conditions, the fund manager may decide to hold up to 100% in equity markets. This would be for a limited period and only in exceptional circumstances.

The Fund may also hold, on a temporary basis, all or part of its assets in cash or other ancillary liquid assets. The Fund may utilise derivatives for the purposes of efficient portfolio management.

### Performance

Percentage growth, 8 November 2012 to 31 March 2016

FP Brompton Global Opportunities B Acc v IA Flexible Investment since launch
