WAY Global Balanced Portfolio

A unit trust managed by Brompton Asset Management

Fund manager's commentary

Global equities gained 6.96% in sterling on news of an Iran-US ceasefire and peace talks but bonds fell 1.75% as leading central banks left their official interest rates on hold amid speculation that rates may remain elevated because higher energy prices could increase inflation despite lowering economic growth. US stocks outperformed, up 7.23% in sterling, led higher by technology stocks, up 15.60% on strong demand for beneficiaries of investment in artificial intelligence infrastructure. Equities in Asia excluding Japan and emerging markets also outperformed, up 12.87% and 11.34% in sterling respectively, led higher by technology stocks, including some of the world's leading semiconductor manufacturers. Man Asia (ex-Japan) Equity and Pacific North of South Global Emerging Markets Equity were the WAY Global Balanced Portfolio's strongest significant holdings, up 14.37% and 11.97% respectively. The allocation to Asia excluding Japan and emerging markets increased, with Chikara Indian Subcontinent added and the Redwheel Next Generation Emerging Markets Equity holding significantly increased. In Europe excluding the UK, where equities gained 4.69% in sterling, the iShares MSCI EMU exchange-traded fund (ETF) outperformed, rising 5.11%. Within the global bond allocation, the sterling-hedged Pimco Global Low Duration Real Return holding proved defensive in the face of higher energy prices, rising 1.09%, but the iShares Treasury Bond 1-3 Years ETF fell 2.73% as the dollar weakened 2.95% against sterling. Within the UK bond allocation, TwentyFour Strategic Income rose 1.35%. Trojan, a lower-risk multi-asset investment, rose 1.98%. The WAY Global Balanced Portfolio rose 2.56% in April while the sector rose 3.29%.
