WAY Global Balanced Portfolio

Fund manager's commentary

Global bonds and equities fell 1.90% and 1.28% respectively in sterling as the oil price rose 20.97% in response to renewed Middle East conflict, triggering fears that interest rates will rise to combat resurgent inflation. US stocks fell 1.44% in sterling but the WAY Global Balanced Portfolio's holding in the Xtrackers S&P 500 Equal Weight exchange-traded fund fell only 0.41% because of its low technology weighting during a month in which global technology stocks fell 5.77% on concerns that artificial intelligence datacentres may fail to deliver economic returns. Some hardware suppliers were caught in the sell-off and Polar Capital Global Technology fell 20.33%. Equities in Asia excluding Japan and emerging markets also underperformed, down 4.51% and 4.36% respectively in sterling. Within the portfolio, Baillie Gifford Pacific and Pacific North of South Global Emerging Markets Equity, which have high allocations to hardware suppliers, fell 9.63% and 7.76% respectively but Redwheel Next Generation Emerging Markets Equity outperformed, up 1.79% because of its bias towards smaller emerging market economies that have lower technology sector weightings. Indian stocks rose 0.38% in sterling and Chikara Indian Subcontinent, which has a bias towards domestic, consumer-oriented stocks, outperformed, up 2.32%. UK stocks also outperformed, up 3.86%, and smaller companies did better, up 5.79%. Within the portfolio, Artemis UK Special Situations gained 3.87%. Within the bond allocation, the sterling-hedged Pimco Global Low Duration Real Return holding gained 0.15% but Aegon Strategic Bond fell 1.55%. The WAY Global Balanced Portfolio fell 0.75% in July while the sector fell 0.40%.

Investment objective & policy

The objective of the Fund is to provide long-term capital growth.

The Fund will seek to achieve its objective from an actively managed and diversified portfolio of collective investment schemes (including investment trusts) with exposure to cash, fixed interest securities, equity and equity-linked investments selected from various markets worldwide encompassing a variety of economic sectors. The Fund will typically invest between 20% and 60% of its portfolio in schemes which invest in equity securities.

The use of derivatives is not permitted but borrowing of up to 10% of the Fund's net asset value will be permitted on a temporary basis. The Fund may invest in hedged share classes of underlying funds.

Although the Fund will normally remain fully invested, the property of the Fund may consist of up to 10% cash or near cash where this may be reasonably regarded as necessary in order to enable the pursuit of the Fund's objective, the settlement of redemptions of units and the efficient management of the Fund in accordance with its objectives or other purposes which may be reasonably regarded as ancillary to the objectives of the Fund.
