ISIN code	GB00BQNKFJ23
C class shares are available for WTL investors paying trust fees directly to WTL.	

WAY Global Balanced Portfolio

A unit trust managed by Brompton Asset Management

Fund manager's commentary

Global equities and bonds fell 0.82% and 0.61% in sterling respectively in November. UK stocks rose 0.48% as the chancellor, Rachel Reeves, announced £26 billion of budget tax increases but no significant economic stimulus measures. Within the WAY Global Balanced Portfolio's UK equity allocation, Fidelity Special Situations did best, up 1.71%. US stocks marginally outperformed, falling 0.60% in sterling, but technology stocks did worse, falling 3.20%. HSBC S&P 500 Equal Weight Equity, which has a lower technology weighting than market-value-weighted passive US investments, outperformed, up 1.12%. Investment in the US technology sector, which appeared priced for perfection, was cut through a reduction in Fidelity Index US. In Europe excluding the UK, where equities rose 0.67% in sterling, Lightman European, a value-oriented holding, rose 1.44% but the iShares MSCI EMU exchange-traded fund gained only 0.01%. Equities in Asia excluding Japan and emerging markets underperformed, falling 3.65% and 3.20% respectively in sterling. Within the portfolio, Redwheel Next Generation Emerging Markets Equity rose 0.64% but Baillie Gifford Pacific and Man Asia (ex-Japan) Equity fell 4.33% and 4.12% respectively. Within the fixed income allocation, TwentyFour Strategic Income and the sterling-hedged Pimco Global Low Duration Real Return holding did best, rising 0.41% and 0.39% respectively. A sterling-hedged Aegon Strategic Bond holding was added to the allocation. Polar Capital Global Insurance was the strongest significant global equity holding, rising 3.33%. Among the alternative holdings, Man UK Absolute Value did best, up 1.07%. The WAY Global Balanced Portfolio fell 0.18% in November while the sector fell 0.16%.

BROMPTON

ASSET MANAGEMENT

Investment objective & policy

The objective of the Fund is to provide long-term capital growth.

The Fund will seek to achieve its objective from an actively managed and diversified portfolio of collective investment schemes (including investment trusts) with exposure to cash, fixed interest securities, equity and equity-linked investments selected from various markets worldwide encompassing a variety of economic sectors. The Fund will typically invest between 20% and 60% of its portfolio in schemes which invest in equity securities.

The use of derivatives is not permitted but borrowing of up to 10% of the Fund's net asset value will be permitted on a temporary basis. The Fund may invest in hedged share classes of underlying funds.

Although the Fund will normally remain fully invested, the property of the Fund may consist of up to 10% cash or near cash where this may be reasonably regarded as necessary in order to enable the pursuit of the Fund's objective, the settlement of redemptions of units and the efficient management of the Fund in accordance with its objectives or other purposes which may be reasonably regarded as ancillary to the objectives of the Fund.

The Fund's benchmark is IA Mixed Investment 20-60% Shares. This represents a comparator benchmark because the Fund's performance can be compared to funds which also sit within this industry sector.
