Fund manager's commentary

The Federal Reserve held its official rate at 4.25-4.5% but the Bank of England cut Bank Rate a quarter percentage point to 4.25% and the European Central Bank followed suit in early June, cutting its policy rate to 2%. Global equities rose 4.81% in sterling but bonds fell 1.30%. The Fed reported solid economic growth but elevated inflation. US stocks rose 5.28% in sterling as technology shares rebounded 9.99%. Within the WAY Global Cautious Portfolio, the iShares S&P 500 Equal Weight exchange-traded fund (ETF), lagged, however, up only 3.31% because of its lower allocation to technology. UK smaller companies, up 7.16%, outperformed the broader market, up 4.06%. Within the portfolio, Artemis UK Special Situations gained 8.61% because of its bias towards small and medium-sized companies but the iShares FTSE 100 ETF rose only 3.16%. Equities in emerging markets and Asia excluding Japan lagged, up 3.31% and 4.29% respectively in sterling, with Chinese shares rising only 1.78% despite a Sino-US tariff rapprochement. Within the portfolio, Redwheel Next Generation Emerging Markets, which has no allocation to Chinese stocks, gained 3.99% but Man Asia (ex-Japan) Equity rose only 2.82%. Within the fixed income allocation, Schroder Strategic Credit and TwentyFour Strategic Income both rose 0.94% but the iShares \$ Treasury Bond 1-3 Years ETF fell 1.27%. Within the alternative allocation, Trojan, a multi-asset investment, gained 0.74%. The iShares Physical Gold exchange-traded commodity fell 1.70% as investors took profits on bullion. The WAY Global Cautious Portfolio gained 1.45% in May while the sector gained 0.95%.

Investment objective & policy

The objective of the Fund is to provide capital growth, net of all fees, over the longer term (5 years), by utilising a cautious approach to investing. Capital invested in the Fund is at risk and there is no guarantee that the investment objective will be met.

The Fund will seek to achieve its objective through conservative investment in an actively managed and diversified portfolio of collective investment schemes, investment trusts, other listed securities, cash or near cash, deposits and money market instruments. The Fund will typically invest up to 35% of its portfolio in equity securities. The Fund may invest up to 20% in unregulated collective investment schemes.

There will be no restrictions on the underlying content of the investments held, in terms of investment type, geographical or economic sector.

Derivatives will not be used. Currency hedging transactions, including investing in hedged share classes, may be used where appropriate, in order to mitigate against the effects of changes in currency exchange rates against the Fund's base currency which is pounds sterling. Borrowing of up to 10% of the Fund's net asset value will be permitted.

The Fund's benchmark is IA Mixed Investment 0-35% Shares. This represents a comparator benchmark because the Fund's performance can be compared to funds which also sit within this industry sector.
