### Fund manager's commentary

Global equities fell 0.17% in sterling. Amongst the WAY Flexible Global Growth Portfolio's global equity holdings, Polar Capital Global Insurance outperformed, up 3.39%. The iShares Gold Producers exchange-traded fund (ETF) also outperformed, rising 2.33% despite the gold price's 0.61% fall in sterling after Newmont increased its bid for Newcrest, a rival gold miner. Polar Capital Global Technology, however, fell 5.39%. Sterling rose 1.65% against the dollar and UK equities gained 3.61% as the first estimate for first-quarter gross domestic product showed growth at 0.1% against analysts' forecasts of a 0.1% decline. The UK equity holdings lagged. Liontrust UK Smaller Companies was weakest, falling 0.30%, while Aberforth UK Small Companies did best, up 3.32%. Equities in Asia excluding Japan and emerging markets fell 3.66% and 2.72% respectively in sterling, dragged lower by stockmarket falls in China. Despite the economic boost from the end of Beijing's zero-Covid-19 lockdown, stocks fell 6.70% in sterling, weakened by Sino-US tensions over Taiwan and a US Chamber of Commerce warning of the rising risks of doing business in China. Among the portfolio's significant holdings, Vietnam Enterprise Investments did worst, down 7.48%, while Stewart Investors Indian Subcontinent Sustainability did best, rising 1.80% but underperforming India's stockmarket, up 2.49% in sterling. Global bonds fell 1.19% in sterling while the sterling-hedged Redwheel Asia Convertibles holding fell 0.97%. UK government bonds fell 1.89%; investment-grade corporate bonds rose 0.30%, however, and TwentyFour Strategic Income returned 0.86%. The WAY Flexible Global Growth Portfolio fell 0.24% in April while the sector rose 0.48%.

## WAY Flexible Global Growth Portfolio (continued)

A unit trust managed by  
Brompton Asset Management

### Investment objective & policy

The objective of the Fund is to provide maximum capital growth.

The Fund will seek to achieve its objective from an actively managed and diversified portfolio of collective investment schemes (including investment trusts) with exposure to underlying assets such as equities, bonds, money market instruments, property and commodities. The Investment Adviser will not be constrained by underlying asset type or geographical split of the Fund's portfolio. The Fund may be invested up to 100% in schemes investing in equity securities, in appropriate market conditions.

The use of derivatives is not permitted but borrowing of up to 10% of the Fund's net asset value will be permitted on a temporary basis. The Fund may invest in hedged share classes of underlying funds.

Although the Fund will normally remain fully invested, the property of the Fund may consist of up to 10% cash or near cash where this may be reasonably regarded as necessary in order to enable the pursuit of the Fund's objective, settlement of redemptions of units and the efficient management of the Fund in accordance with its objectives or other purposes which may be reasonably regarded as ancillary to the objectives of the Fund.

The Fund's benchmark is IA Flexible Investment. This represents a comparator benchmark because the Fund's performance can be compared to funds which also sit within this industry sector.
