WAY Flexible Global Growth Portfolio[#]

A unit trust managed by
Brompton Asset Management

Fund manager's commentary

Global equities fell 0.59% as initial gains were eroded by fears that the coronavirus may extinguish the nascent recovery in global economic growth. Investors regained their sang froid in early February, however, after an improvement in a key US manufacturing indicator and strong jobs data. Safe-haven assets rose in January, with gold and global bonds gaining 4.49% and 1.78% respectively in sterling. UK government bonds and sterling corporate bonds returned 3.86% and 2.84% respectively as the gulf between UK and European Union trade negotiators became apparent. Among the WAY Flexible Global Growth Portfolio's significant fixed income holdings, Jupiter Dynamic Bond did best, returning 2.37% as it benefitted from its longer-duration investments, but the sterling-hedged RWC Asia Convertibles holding fell 0.74%. All of the alternative holdings posted gains, with BlackRock European Absolute Alpha doing best, rising 2.07%. UK equities fell 3.31% but all but one of the portfolio's significant UK equity holdings outperformed. Chelverton UK Equity Growth did best, rising 0.53%, but Majedie UK Focus lagged, falling 3.47%. In Japan, where equities fell 1.39% in sterling, T Rowe Price Japanese Equity was relatively resilient, falling 1.27%, but Lindsell Train Japanese Equity lagged, down 3.97%. Equities in Asia excluding Japan underperformed, falling 3.97% in sterling, and Hermes Asia ex-Japan Equity and Fidelity Asian Special Situations were conspicuously weak, down 6.31% and 5.52% respectively. US technology shares were in demand, contributing to Polar Capital Global Technology's 4.50% rise. The WAY Flexible Global Growth Portfolio fell 0.72% in January while the sector fell 0.45%.

A unit trust managed by
Brompton Asset Management

Investment objective & policy

The objective of the Fund is to provide maximum capital growth.

The Fund will seek to achieve its objective from an actively managed and diversified portfolio of collective investment schemes (including investment trusts) with exposure to underlying assets such as equities, bonds, money market instruments, property and commodities. The Investment Adviser will not be constrained by underlying asset type or geographical split of the Fund's portfolio. The Fund may be invested up to 100% in schemes investing in equity securities, in appropriate market conditions.

The use of derivatives is not permitted but borrowing of up to 10% of the Fund's net asset value will be permitted on a temporary basis. The Fund may invest in hedged share classes of underlying funds.

Although the Fund will normally remain fully invested, the property of the Fund may consist of up to 10% cash or near cash where this may be reasonably regarded as necessary in order to enable the pursuit of the Fund's objective, settlement of redemptions of units and the efficient management of the Fund in accordance with its objectives or other purposes which may be reasonably regarded as ancillary to the objectives of the Fund.

The Fund's benchmark is IA Flexible Investment. This represents a comparator benchmark because the Fund's performance can be compared to funds which also sit within this industry sector.
