Acc ISIN code	GB00B96VT465

E class shares are available for direct fund investment. For information, please ring the dealing line, 01202 855856.

Fund manager's commentary

Global equities rose 0.40% in sterling, buoyed by US stocks, up 1.85%. US technology stocks were particularly strong, rising 12.18% in sterling as Nvidia, a supplier of artificial intelligence hardware and software, announced better-than-expected results. Polar Capital Global Technology was the WAY Flexible Global Growth Portfolio's strongest performer, rising 13.76%. The other significant global equity investments underperformed, however, with the iShares Gold Producers exchange-traded fund (ETF) doing worst, down 7.10%. The Federal Reserve increased its official interest rate by a quarter percentage point to 5-5.25% and implied this might be its last increase in the short term. Growth stocks benefited, rising 3.47% in sterling while value stocks fell 2.83%. Global bonds fell 0.57% in sterling. UK inflation, dropping from 10.1% to 8.7%, disappointed investors. In response, UK government bonds and sterling investment grade corporate bonds fell 3.83% and 2.38% respectively but high-yield bonds returned 0.35%. Within the portfolio, the sterling-hedged Redwheel Asia Convertibles holding fell 0.95% but Schroder Strategic Credit rose 0.50%. UK stocks fell 5.00% but all UK equity holdings outperformed, with Liontrust UK Smaller Companies most resilient, down 0.11%. Equities in Asia excluding Japan and emerging markets fell 0.43% and 0.26% respectively in sterling, dragged lower by Chinese stocks, down 7.12% on fears the stimulus from the end of zero-Covid-19 policies would prove short-lived. Within the portfolio, Stewart Investors Indian Subcontinent outperformed, rising 6.08%, but Baillie Gifford Global Emerging Markets Growth fell 3.51%. The WAY Flexible Global Growth Portfolio rose 0.70% in May while the sector fell 0.52%. Financial data source: Refinitiv 31 May 2023.

Investment objective & policy

The objective of the Fund is to provide maximum capital growth.

The Fund will seek to achieve its objective from an actively managed and diversified portfolio of collective investment schemes (including investment trusts) with exposure to underlying assets such as equities, bonds, money market instruments, property and commodities. The Investment Adviser will not be constrained by underlying asset type or geographical split of the Fund's portfolio. The Fund may be invested up to 100% in schemes investing in equity securities, in appropriate market conditions.

The use of derivatives is not permitted but borrowing of up to 10% of the Fund's net asset value will be permitted on a temporary basis. The Fund may invest in hedged share classes of underlying funds.

Although the Fund will normally remain fully invested, the property of the Fund may consist of up to 10% cash or near cash where this may be reasonably regarded as necessary in order to enable the pursuit of the Fund's objective, settlement of redemptions of units and the efficient management of the Fund in accordance with its objectives or other purposes which may be reasonably regarded as ancillary to the objectives of the Fund.

The Fund's benchmark is IA Flexible Investment. This represents a comparator benchmark because the Fund's performance can be compared to funds which also sit within this industry sector.
