WAY Flexible Global Growth Portfolio

A unit trust managed by Brompton Asset Management

Fund manager's commentary Global equities rose 3.41% in sterling and US stocks outperformed, up 5.26% as Congress raised the public sector debt ceiling and expectations, confirmed in early November, grew that it would enact \$1 trillion of fiscal easing. US technology stocks did even better, up 7.18% in sterling. UK stocks underperformed, up only 2.31% as sterling strengthened. The Bank of England governor, Andrew Bailey, raised the possibility, ultimately unrealised, of an interest rate rise as early as November. The WAY

Flexible Global Growth Portfolio's significant UK equity holdings lagged thanks to a bias towards smaller companies, which fell 0.54%, with Liontrust UK Micro Cap and Chelverton UK Equity Growth the weakest, down 2.66% and 2.51% respectively. Equities in emerging markets and Asia excluding Japan fell 0.65% and 0.29% respectively in sterling. Fears of a default by Evergrande, an over-indebted Chinese property developer, weighed on sentiment as third-quarter Chinese economic growth slowed to 4.9%. Within the portfolio, three of the five significant holdings fell, with Hermes Asia ex-Japan weakest, down 3.12%, but Vietnam Enterprise Investments and Baillie Gifford Pacific bucked the trend, rising 4.23% and 2.82% respectively. In Japan, equities fell 5.11% in sterling as the yen fell 3.75% against the pound as the election victory of Fumio Kishida, the prime minister, brought increased monetary stimulus a step closer. Global bonds fell 1.87% in sterling but UK government and sterling investment-grade corporate bonds rose 2.42% and 0.44% respectively. The WAY Flexible Global Growth Portfolio rose 0.20% in October while the sector rose 0.84%

BROMPTON ASSET MANAGEMENT

Investment objective & policy

The objective of the Fund is to provide maximum capital growth.

The Fund will seek to achieve its objective from an actively managed and diversified portfolio of collective investment schemes (including investment trusts) with exposure to underlying assets such as equities, bonds, money market instruments, property and commodities. The Investment Adviser will not be constrained by underlying asset type or geographical split of the Fund's portfolio. The Fund may be invested up to 100% in schemes investing in equity securities, in appropriate market conditions.

The use of derivatives is not permitted but borrowing of up to 10% of the Fund's net asset value will be permitted on a temporary basis. The Fund may invest in hedged share classes of underlying funds.

Although the Fund will normally remain fully invested, the property of the Fund may consist of up to 10% cash or near cash where this may be reasonably regarded as necessary in order to enable the pursuit of the Fund's objective, settlement of redemptions of units and the efficient management of the Fund in accordance with its objectives or other purposes which may be reasonably regarded as ancillary to the objectives of the Fund.

The Fund's benchmark is IA Flexible Investment. This represents a comparator benchmark because the Fund's performance can be compared to funds which also sit within this industry sector.
