WAY Flexible Global Growth Portfolio

A unit trust managed by Brompton Asset Management

Fund manager's commentary

Global equities fell 1.89% in sterling on trade war fears, with US stocks even weaker, down 2.61%. US technology stocks fell 4.67% in sterling and Polar Capital Global Technology was one of the WAY Flexible Global Growth Portfolio's weakest holdings, down 7.81%. The iShares S&P 500 Equal Weight exchange-traded fund (ETF) outperformed, however, falling only 1.97% because of its relatively-modest technology weighting. The Bank of England cut Bank Rate by a quarter percentage point to 4.5%. UK government bonds and global bonds rose 0.94% and 0.09% in sterling respectively. Within the portfolio, the sterling-hedged Vanguard Global Aggregate Bond and Pimco Global Low Duration Real Return holdings rose 1.42% and 1.16% respectively. UK stocks outperformed, up 1.43%, but smaller companies, which are more exposed to domestic trends, fell 4.14%. The iShares FTSE 100 ETF, which holds London's largest stocks, rose 1.98% but Artemis UK Special Situations, which holds small and medium-sized companies, was weaker, up just 0.05%. Stocks in Europe excluding the UK also outperformed, rising 2.37% in sterling as investors warmed to the European Central Bank's forecast of benign inflation. Lightman European, which takes a value approach, rose 1.83%. The iShares MSCI EMU ETF, which tracks the eurozone's largest stocks, was added. Equities in emerging markets and Asia excluding Japan fell 0.82% and 0.28% respectively in sterling. Within the portfolio, Man Asia (ex Japan) Equity rose 5.29% but Stewart Investors Indian Subcontinent fell 12.70%. The WAY Flexible Global Growth Portfolio fell 1.01% in February while the sector fell 1.46%.

Investment objective & policy

The objective of the Fund is to provide maximum capital growth.

The Fund will seek to achieve its objective from an actively managed and diversified portfolio of collective investment schemes (including investment trusts) with exposure to underlying assets such as equities, bonds, money market instruments, property and commodities. The Investment Adviser will not be constrained by underlying asset type or geographical split of the Fund's portfolio. The use of derivatives is not permitted but borrowing of up to 10% of the Fund's net asset value will be permitted on a temporary basis. The Fund may invest in hedged share classes of underlying funds.

Although the Fund will normally remain fully invested, the property of the Fund may consist of up to 10% cash or near cash where this may be reasonably regarded as necessary in order to enable the pursuit of the Fund's objective, settlement of redemptions of units and the efficient management of the Fund in accordance with its objectives or other purposes which may be reasonably regarded as ancillary to the objectives of the Fund.

The Fund's benchmark is IA Flexible Investment. This represents a comparator benchmark because the Fund's performance can be compared to funds which also sit within this industry sector.
