WAY Flexible Global Growth Portfolio

A unit trust managed by Brompton Asset Management

Fund manager's commentary

Global equities fell 2.45% in sterling, led lower by US technology stocks, down 9.51% on fears of a capital spending slow-down caused by tighter monetary policy and public unease at the environmental and social impact of rapid datacentre expansion. Within the WAY Flexible Global Growth Portfolio, the Xtrackers S&P 500 exchange-traded fund (ETF) fell 1.71% but the Xtrackers S&P 500 Equal Weight ETF, which has a lower technology weighting, rose 4.09%. Within the portfolio's global equity allocation, Polar Capital Global Technology fell 16.52% but Atlas Global Infrastructure rose 5.45%. Equities in Asia excluding Japan and emerging markets lagged, falling 8.97% and 8.81% in sterling respectively as US technology sector weakness spread to Asian technology hardware producers. Within the portfolio, Baillie Gifford Pacific and Man Asia (ex Japan) Equity fell 12.76% and 11.89% respectively but Chikara Indian Subcontinent, which has a lower allocation to technology stocks, rose 0.24%. Global bonds rose 0.56% in sterling while UK government bonds returned 1.67%. Within the portfolio, the sterling-hedged Pimco Global Low Duration Real Return holding rose 1.56% but the iShares $ Treasury Bond 0-1 Year ETF fell 0.44%, negatively affected by the dollar's 0.84% fall against the pound. The iShares UK Gilts 0-5 Years ETF was added to the portfolio because of its attractive inflation-adjusted yield. The portfolio's sole alternative holding, Trojan, a conservative multi-asset investment, rose 2.20%. Rising interest rates fuelled the iShares Gold Producers ETF's 12.24% fall. The WAY Flexible Global Growth Portfolio fell 1.20% in October while the sector fell 1.38%.

ASSET MANAGEMENT

Investment objective & policy

The objective of the Fund is to provide maximum capital growth.

The Fund will seek to achieve its objective from an actively managed and diversified portfolio of collective investment schemes (including investment trusts) with exposure to underlying assets such as equities, bonds, money market instruments, property and commodities. The Investment Adviser will not be constrained by underlying asset type or geographical split of the Fund's portfolio. The Fund may be invested up to 100% in schemes investing in equity securities, in appropriate market conditions.

The use of derivatives is not permitted but borrowing of up to 10% of the Fund's net asset value will be permitted on a temporary basis. The Fund may invest in hedged share classes of underlying funds.

Although the Fund will normally remain fully invested, the property of the Fund may consist of up to 10% cash or near cash where this may be reasonably regarded as necessary in order to enable the pursuit of the Fund's objective, settlement of redemptions of units and the efficient management of the Fund in accordance with its objectives or other purposes which may be reasonably regarded as ancillary to the objectives of the Fund.

The Fund's benchmark is IA Flexible Investment. This represents a comparator benchmark because the Fund's performance can be compared to funds which also sit within this industry sector.
