WAY Global Balanced Portfolio[#]

A unit trust managed by
Brompton Asset Management

Fund manager's commentary

Global equities rose 2.52% in sterling, buoyed by hopes of an imminent Sino-US interim trade deal. US stocks outperformed, rising 3.67% in sterling. UK equities lagged, rising 1.76%, but smaller companies outperformed, up 4.77% as investors proved sanguine in advance of December's general election. The UK avoided a recession, with third-quarter gross domestic product rising 0.3% quarter-on-quarter according to the initial estimate. All but one of the WAY Global Balanced Portfolio's holdings in actively-managed UK equity funds outperformed because of their bias towards companies with greater sensitivity to domestic economic trends. Chelverton UK Equity Growth and GLG Undervalued Assets were the best performers, rising 5.70% and 4.67% respectively. Japanese equities also underperformed, rising 0.68% in sterling, but the portfolio's three Japanese equity holdings outperformed, with T Rowe Price Japanese Equity doing best, up 4.43%. In Europe excluding the UK, where equities lagged, rising 1.48% in sterling, BlackRock European Dynamic outperformed, rising 4.29%. Global bonds fell 0.72% in sterling while UK government bonds and sterling corporate bonds fell 0.88% and 0.12% respectively. Among the portfolio's significant holdings, Schroder Strategic Credit did best, up 0.61% due to its bias towards shorter-duration assets, but the sterling-hedged Vanguard Global Bond investment fell 0.24%. Gold fell 3.08% in sterling and the iShares Gold Producers exchange-traded fund was the weakest holding, falling 4.07%. All of the significant alternative holdings posted gains, with Man GLG UK Absolute Value doing best, rising 0.91%. The WAY Global Balanced Portfolio rose 1.58%† in November while the sector gained 1.19%.

Investment objective & policy

The objective of the Fund is to provide long-term capital growth.

The Fund will seek to achieve its objective from an actively managed and diversified portfolio of collective investment schemes (including investment trusts) with exposure to cash, fixed interest securities, equity and equity-linked investments selected from various markets worldwide encompassing a variety of economic sectors. The Fund will typically invest between 20% and 60% of its portfolio in schemes which invest in equity securities.

The use of derivatives is not permitted but borrowing of up to 10% of the Fund's net asset value will be permitted on a temporary basis.

The Fund may invest in hedged share classes of underlying funds.

Although the Fund will normally remain fully invested, the property of the Fund may consist of up to 10% cash or near cash where this may be reasonably regarded as necessary in order to enable the pursuit of the Fund's objective, the settlement of redemptions of units and the efficient management of the Fund in accordance with its objectives or other purposes which may be reasonably regarded as ancillary to the objectives of the Fund.

The Fund's benchmark is IA Mixed Investment 20-60% Shares. This represents a comparator benchmark because the Fund's performance can be compared to funds which also sit within this industry sector.
