Fund manager's commentary

Global equities rose 3.41% in sterling and US stocks outperformed, up 5.26% as Congress raised the public sector debt ceiling and expectations, confirmed in early November, grew that it would enact \$1 trillion of fiscal easing. US technology stocks did even better, up 7.18% in sterling, but the WAY Global Balanced Portfolio's Polar Capital Global Technology holding gained only 3.08%. UK stocks underperformed, up only 2.31% as sterling strengthened. The Bank of England governor, Andrew Bailey, raised the possibility, ultimately unrealised, of an interest rate rise as early as November. The portfolio's significant UK equity holdings lagged thanks to a bias towards smaller companies, which fell 0.54%, with Liontrust UK Micro Cap weakest, down 2.66%. Equities in emerging markets and Asia excluding Japan fell 0.65% and 0.29% respectively in sterling. Fears of a default by Evergrande, an over-indebted Chinese property developer, weighed on sentiment as third-quarter Chinese economic growth slowed to 4.9%. Within the portfolio, two of three significant holdings fell, with Hermes Asia ex-Japan Equity weakest, down 3.12%, but Baillie Gifford Pacific bucked the trend, rising 2.82%. Japanese equities fell 5.11% in sterling as the yen fell 3.75% against the pound as the election victory of Fumio Kishida, the prime minister, brought increased monetary stimulus a step closer. Global bonds fell 1.87% in sterling but UK government and sterling investment-grade corporate bonds rose 2.42% and 0.44% respectively. The iShares Gold Producers exchange-trade fund rose 6.53%. The WAY Global Balanced Portfolio rose 0.20%† in October while the sector rose 0.57%.

Investment objective & policy

The objective of the Fund is to provide long-term capital growth.

The Fund will seek to achieve its objective from an actively managed and diversified portfolio of collective investment schemes (including investment trusts) with exposure to cash, fixed interest securities, equity and equity-linked investments selected from various markets worldwide encompassing a variety of economic sectors. The Fund will typically invest between 20% and 60% of its portfolio in schemes which invest in equity securities.

The use of derivatives is not permitted but borrowing of up to 10% of the Fund's net asset value will be permitted on a temporary basis. The Fund may invest in hedged share classes of underlying funds.

Although the Fund will normally remain fully invested, the property of the Fund may consist of up to 10% cash or near cash where this may be reasonably regarded as necessary in order to enable the pursuit of the Fund's objective, the settlement of redemptions of units and the efficient management of the Fund in accordance with its objectives or other purposes which may be reasonably regarded as ancillary to the objectives of the Fund.

The Fund's benchmark is IA Mixed Investment 20-60% Shares. This represents a comparator benchmark because the Fund's performance can be compared to funds which also sit within this industry sector.
