The Fund is managed by WAY Fund Managers Limited

Investment Objective and Investment Policy

Objective:
The investment objective of the Fund is to provide long-term capital growth (i.e. over a period of at least 5 years).

Policy:
The Fund will seek to achieve its objective from an actively managed and diversified portfolio of collective investment schemes (including investment trusts).

The Fund will have exposure to cash, fixed interest securities, equity and equity-linked investments selected from various markets worldwide encompassing a variety of economic sectors.

The Fund will typically invest between 20% and 60% of its portfolio in schemes which invest in equity securities.

The use of derivatives is not permitted but borrowing of up to 10% of the Fund's net asset value will be permitted on a temporary basis. The Fund may invest in hedged share classes of underlying funds.

The Fund may hold up to 10% of its net asset value in cash or near cash where this is considered reasonable in achieving the objective of the Fund.

Borrowing of up to 10% of the Fund's net asset value will be permitted on a temporary basis. The Fund may invest in hedged share classes of underlying funds.

Benchmark:
The appropriate comparator benchmark against which the performance of the Fund can be measured is the Investment Association's IA Mixed Investment 20-60% Shares sector.

Other information:

- Investment in the Fund should be regarded as long-term, which is at least 5 years;
- There can be no guarantee that the objective of the Fund will be achieved;
- Upon redemption, particularly in the short-term, you may receive less than the original amount invested;
- In relation to share classes where there is an Entry Charge (see overleaf), the charge is deducted from your investment at the outset. Therefore, an equivalent rise in the value of shares is required before the original investment can be recovered. Various other charges accrue daily, therefore an equivalent rise in the value of units is required before the original investment can be recovered.
- As you hold income units, income from investments in the Fund will be paid out to you once a year.
- Due to the investment objective of the Fund, it is likely that any return generated will be in the form of capital appreciation;
- You can buy and sell your units in the Fund on each business day between 9am and 5pm.

- The Class T Shares above appear as a "4" on the scale. This is because the Fund has experienced medium to high rises and falls in value in the past. This indicator is based on historical data and may not be a reliable indication of the future risk profile of the Fund.
- The risk and reward category shown is not guaranteed to remain unchanged and may shift over time.
- The lowest category does not mean 'risk free'.
- The Fund does not provide its investors with any guarantee on performance, nor on monies invested in it.
- In addition to the risk captured by the indicator, the overall fund value may be considerably affected by the following risks:

- The Fund invests indirectly in some overseas markets which carry a higher than average risk of investment and the Fund may have problems or delays in getting its investments back.
- Investments may be made in assets denominated in various currencies and the movements of exchange rates may have an effect, unfavourable as well as favourable, on the gains and losses otherwise experienced on such investments.
- The Fund could lose money if a counterparty with which it interacts becomes unwilling or unable to meet its obligations to the Fund.
- The Fund will bear, along with the other investors, its portion of the fees and expenses of any other collective investment scheme it invests in. These fees will be in addition to the management fees and other expenses which the Fund bears directly with its own operations.

Class T Inc	
Entry charge	2.00%
Exit charge	0.00%

This is the maximum that might be taken out of your money before it is invested (Entry charge) or before the proceeds of your investment are paid out (Exit charge).

Charges taken from the fund over a year

Ongoing charge	1.84%
Charges taken from the fund under certain specific conditions

The entry and exit charges shown are maximum figures. In some cases (including when switching to other funds) you might pay less - you can find out actual entry and exit charges from your financial adviser.

The ongoing charges figure is based on expenses for the period ending 31 March 2025 and may vary from year to year. The ongoing charges figure includes any portfolio transaction costs which the Fund pays to its service providers (e.g. to the Fund's custodian) and any entry/exit charges the Fund pays when buying/selling units in another fund. In general, however, the figure excludes other portfolio transaction costs.

The ongoing charges are taken from income. Should income levels be insufficient, investments in the Fund may be sold to cover the Fund's expenses, its capital assets may be used to meet ongoing charges, and the value of your units would be reduced.

For more information about charges, please see pages 17 to 21 of the Fund's Prospectus, which is available from the Manager at WAY Fund Managers Limited, Cedar House, 3 Cedar Park, Cobham Road, Wimborne, Dorset BH21 7SB or, during normal business hours on 01202 855856.
