Investment objective & policy

The objective of the Fund is total investment return against the IA Mixed Investment 0-35% Shares sector over a 3 year rolling period. Capital invested in the Fund is at risk and there is no guarantee that the investment objective will be met over the 3 year rolling period or in respect of any other period.

The Fund will seek to achieve its objective through conservative investment in an actively managed and diversified portfolio of collective investment schemes, investment trusts, other listed securities, cash or near cash, deposits and money market instruments. The Fund will typically invest up to 35% of its portfolio in equity securities. The Fund may invest up to 20% in unregulated collective investment schemes.

There will be no restrictions on the underlying content of the investments held, in terms of investment type, geographical or economic sector.

Derivatives will not be used. Currency hedging transactions, including investing in hedged share classes, may be used where appropriate, in order to mitigate against the effects of changes in currency exchange rates against the Fund's base currency which is pounds sterling. Borrowing of up to 10% of the Fund's net asset value will be permitted.

The Fund's benchmark is IA Mixed Investment 0-35% Shares. This represents a comparator benchmark because the Fund's performance can be compared to funds which also sit within this industry sector.
