Fund manager's commentary

Global equities and global bonds fell 0.88% and 1.33% respectively in sterling. The pound gained 1.87%, 1.17%, and 0.46% respectively against the yen, euro and dollar following December's European Union-UK trade deal. Higher energy and industrial commodity prices lifted inflation. UK government bonds and investment-grade corporate bonds fell 1.67% and 1.07% respectively while high-yield bonds rose 0.84%. Within the WAY Global Cautious Portfolio, the sterling-hedged holdings in RWC Asia Convertibles and Legal & General Global Inflation Linked Bond returned 2.80% and 0.47% respectively but Janus Henderson Strategic Bond and Jupiter Dynamic Bond fell 0.45% and 0.27% respectively. US Senate run-off elections handed the Democrats control of both houses of Congress, easing the legislative path of their policies, including higher taxes. President Joe Biden proposed a \$1.9 trillion fiscal easing and US stocks underperformed, falling 1.46% in sterling. In Asia excluding Japan, where dollar-weakness fuelled stockmarket gains of 3.63%, Baillie Gifford Pacific, the portfolio's sole significant holding, outperformed, rising 5.40%. UK equities fell 0.69% but smaller companies fell only 0.21%. Among the significant holdings, Chelverton UK Equity Growth, a growth-oriented investment, did best, rising 2.27%, while Majedie UK Focus was weakest, down 0.60%. Artemis UK Special Situations was added. Gold price weakness precipitated a 1.90% fall in the iShares Physical Gold exchange-traded commodity. The alternative holdings failed to deliver positive returns, with Blackrock European Absolute Alpha weakest, down 1.82%, while Trojan fell only 0.29%. The WAY Global Cautious Portfolio fell 0.15%† in January while the sector fell 0.41%. Financial data source: Refinitiv 31 January 2021. † E Acc shares

Investment objective & policy

The objective of the Fund is total investment return against the IA Mixed Investment 0-35% Shares sector over a 3 year rolling period. Capital invested in the Fund is at risk and there is no guarantee that the investment objective will be met over the 3 year rolling period or in respect of any other period.

The Fund will seek to achieve its objective through conservative investment in an actively managed and diversified portfolio of collective investment schemes, investment trusts, other listed securities, cash or near cash, deposits and money market instruments. The Fund will typically invest up to 35% of its portfolio in equity securities. The Fund may invest up to 20% in unregulated collective investment schemes.

There will be no restrictions on the underlying content of the investments held, in terms of investment type, geographical or economic sector.

Derivatives will not be used. Currency hedging transactions, including investing in hedged share classes, may be used where appropriate, in order to mitigate against the effects of changes in currency exchange rates against the Fund's base currency which is pounds sterling. Borrowing of up to 10% of the Fund's net asset value will be permitted.

The Fund's benchmark is IA Mixed Investment 0-35% Shares. This represents a comparator benchmark because the Fund's performance can be compared to funds which also sit within this industry sector.
