Fund manager's commentary

Global bonds gained 1.13% in sterling while equities gained 0.03%. US consumer price inflation fell to 3%. The Federal Reserve left its policy interest rate unchanged but said inflation and employment were in better balance, leading investors to expect a cut in September. Joe Biden abandoned his re-election campaign and endorsed his vice-president, Kamala Harris, as candidate. The European Central Bank also left its policy rate unchanged but the Bank of England cut Bank Rate by a quarter percentage point shortly after month end. By contrast, the Bank of Japan lifted its policy rate to 0.25% and the yen rose 5.22% against sterling. Within the WAY Global Cautious Portfolio's global allocation, Dimensional Global Targeted Value gained 5.76%, benefiting from sector rotation from growth to value stocks. Polar Capital Global Technology fell 7.28%, however, in response to questions about the transformative power of artificial intelligence. Equities in Asia excluding Japan fell 1.64% in sterling and Baillie Gifford Pacific lagged, falling 4.73%. The UK stockmarket, which has a bias towards cyclical sectors, gained 3.19% and the portfolio's three significant UK equity holdings outperformed, with Man GLG Undervalued Assets strongest, up 4.47%. Within the fixed income allocation, TwentyFour Strategic Income and Jupiter Dynamic Bond rose 1.80% and 1.75% respectively but the sterling-hedged Redwheel Asia Convertible holding fell 2.51%. Within the alternative allocation, Man GLG UK Absolute Value and CT Real Estate Market Neutral Equity returned 0.92% and 0.85% respectively. The WAY Global Cautious Portfolio rose 0.53%† in July while the sector rose 1.03%.

Investment objective & policy

The objective of the Fund is total investment return against the IA Mixed Investment 0-35% Shares sector over a 3 year rolling period. Capital invested in the Fund is at risk and there is no guarantee that the investment objective will be met over the 3 year rolling period or in respect of any other period.

The Fund will seek to achieve its objective through conservative investment in an actively managed and diversified portfolio of collective investment schemes, investment trusts, other listed securities, cash or near cash, deposits and money market instruments. The Fund will typically invest up to 35% of its portfolio in equity securities. The Fund may invest up to 20% in unregulated collective investment schemes.

There will be no restrictions on the underlying content of the investments held, in terms of investment type, geographical or economic sector.

Derivatives will not be used. Currency hedging transactions, including investing in hedged share classes, may be used where appropriate, in order to mitigate against the effects of changes in currency exchange rates against the Fund's base currency which is pounds sterling. Borrowing of up to 10% of the Fund's net asset value will be permitted.

The Fund's benchmark is IA Mixed Investment 0-35% Shares. This represents a comparator benchmark because the Fund's performance can be compared to funds which also sit within this industry sector.
