Fund manager's commentary

Global equities rose 1.00% in sterling despite the failure of three smaller US banks and UBS's state-sponsored rescue of Credit Suisse, a systemically-important institution, which showed the cumulative impact of rising interest rates on the banking system. Investors inferred that peak rates might be close-at-hand. Global bonds rose 1.01% in sterling while UK government bonds returned 3.03%. Within the WAY Global Cautious Portfolio, the sterling-hedged holdings in the iShares \$ Treasury Bond 7-10 Years exchange-traded fund and Legal & General Global Inflation Linked Bond rose 3.61% and 2.68% respectively but TwentyFour Strategic Income, which holds corporate bonds rendered valueless in the Credit Suisse rescue, fell 2.67%. The Bank of England raised Bank rate by a quarter percentage point and lifted its economic forecast. UK equities fell 3.12% because of London's bias towards the financial services and energy, two economically-sensitive sectors. Within the portfolio, Artemis UK Special Situations fell 4.36% but Liontrust Special Situations, a growth-oriented investment, fell only 1.51%. Smaller companies lagged, down 5.61%, and Aberforth UK Smaller Companies did worse, down 6.42%, but Liontrust UK Smaller Companies fell only 3.92%. Gold, as a safe-haven asset, benefitted from banking sector woes, and the iShares Physical Gold exchange-traded commodity gained 6.23%. In Japan, where equities rose 1.92% in sterling, Lindsell Train Japanese Equity outperformed, up 2.06%. Among the portfolio's global equity holdings, Polar Capital Global Technology did best, up 6.47%, but Polar Capital Global Insurance fell 6.93%. The WAY Global Cautious Portfolio fell 0.41%† in March while the sector rose 0.25%.

Investment objective & policy

The objective of the Fund is total investment return against the IA Mixed Investment 0-35% Shares sector over a 3 year rolling period. Capital invested in the Fund is at risk and there is no guarantee that the investment objective will be met over the 3 year rolling period or in respect of any other period.

The Fund will seek to achieve its objective through conservative investment in an actively managed and diversified portfolio of collective investment schemes, investment trusts, other listed securities, cash or near cash, deposits and money market instruments. The Fund will typically invest up to 35% of its portfolio in equity securities. The Fund may invest up to 20% in unregulated collective investment schemes.

There will be no restrictions on the underlying content of the investments held, in terms of investment type, geographical or economic sector.

Derivatives will not be used. Currency hedging transactions, including investing in hedged share classes, may be used where appropriate, in order to mitigate against the effects of changes in currency exchange rates against the Fund's base currency which is pounds sterling. Borrowing of up to 10% of the Fund's net asset value will be permitted.

The Fund's benchmark is IA Mixed Investment 0-35% Shares. This represents a comparator benchmark because the Fund's performance can be compared to funds which also sit within this industry sector.
