Fund manager's commentary

Inflationary pressures eased but the Federal Reserve (Fed), Bank of England (BoE) and European Central Bank left their official interest rates unchanged, aiming to bring inflation sustainably to target. By contrast, the Bank of Japan tightened policy for the first time since 2007, ending Japan's negative interest rate era. Japanese stocks rose 3.42% in sterling. Within the WAY Global Cautious Portfolio, Man GLG Japan CoreAlpha outperformed, up 5.35%. Comgest Growth Japan lagged, rising 2.74%, but Japan's monetary policy shift may produce a rotation from value stocks that benefitted from yen-weakness towards growth stocks. The Fed lifted its 2024 economic growth forecast from December's 1.2-1.7% to 2-2.4%. US stocks rose 3.36% in sterling, beating global stocks, up 3.33%, but technology stocks lagged, rising only 2.49%. Within the portfolio, Polar Capital Global Technology did worse, rising 0.64%. Dimensional Global Targeted Value, a small cap investment that should benefit from changing equity market leadership, rose 5.22%. Polar Capital Global Insurance was increased; its portfolio consists of non-life businesses benefiting from rising premiums and improving investment returns thanks to higher short-dated bond yields. The tech-lite UK stockmarket outperformed, up 4.71% as the BoE forecast economic recovery and inflation below 2% in the second quarter of 2024. Artemis UK Special Situations lagged, however, up 4.21%. Of the significant bond investments, the sterling-hedged Redwheel Asia Convertibles holding did best, returning 2.23%. Within the alternative allocation, Man GLG UK Absolute Value rose 1.29%. The WAY Global Cautious Portfolio rose 2.01%† in March while the sector rose 1.96%.

Investment objective & policy

The objective of the Fund is total investment return against the IA Mixed Investment 0-35% Shares sector over a 3 year rolling period. Capital invested in the Fund is at risk and there is no guarantee that the investment objective will be met over the 3 year rolling period or in respect of any other period.

The Fund will seek to achieve its objective through conservative investment in an actively managed and diversified portfolio of collective investment schemes, investment trusts, other listed securities, cash or near cash, deposits and money market instruments. The Fund will typically invest up to 35% of its portfolio in equity securities. The Fund may invest up to 20% in unregulated collective investment schemes.

There will be no restrictions on the underlying content of the investments held, in terms of investment type, geographical or economic sector.

Derivatives will not be used. Currency hedging transactions, including investing in hedged share classes, may be used where appropriate, in order to mitigate against the effects of changes in currency exchange rates against the Fund's base currency which is pounds sterling. Borrowing of up to 10% of the Fund's net asset value will be permitted.

The Fund's benchmark is IA Mixed Investment 0-35% Shares. This represents a comparator benchmark because the Fund's performance can be compared to funds which also sit within this industry sector.
