### Fund manager's commentary

Global equities rose 0.40% in sterling, buoyed by US stocks, up 1.85%. US technology stocks were particularly strong, rising 12.18% in sterling as Nvidia, an artificial intelligence hardware and software supplier, announced better-than-expected results. Polar Capital Global Technology was the WAY Global Cautious Portfolio's strongest performer, rising 13.76%. The other two significant global equity investments underperformed, however, with Polar Capital Global Insurance doing worst, down 4.47%. The Federal Reserve increased its official interest rate by a quarter percentage point to 5-5.25% and implied this might be its last increase in the short term. Growth stocks benefited, rising 3.47% in sterling while value stocks fell 2.83%. Global bonds fell 0.57% in sterling. UK inflation, dropping from 10.1% to 8.7%, disappointed investors. In response, UK government bonds and sterling investment grade corporate bonds fell 3.83% and 2.38% respectively but high-yield bonds returned 0.35%. Within the portfolio, Jupiter Dynamic Bond fell 1.45% but Schroder Strategic Credit rose 0.50%. UK stocks fell 5.00% but all UK equity holdings outperformed, with Liontrust UK Smaller Companies most resilient, down only 0.11%. Equities in Asia excluding Japan and emerging markets fell 0.43% and 0.26% respectively in sterling, dragged lower by Chinese stocks, down 7.12% on fears that the economic stimulus from the end of zero-Covid-19 policies would prove short-lived. Within the portfolio, the significant holdings outperformed, with Stewart Investors Indian Subcontinent and Redwheel Global Emerging Markets doing best, up 6.08% and 0.18% respectively. The WAY Global Cautious Portfolio fell 0.38%† in May while the sector fell 1.13%.

## WAY Global Cautious Portfolio (continued)

An OEIC managed by  
Brompton Asset Management

### Investment objective & policy

The objective of the Fund is total investment return against the IA Mixed Investment 0-35% Shares sector over a 3 year rolling period. Capital invested in the Fund is at risk and there is no guarantee that the investment objective will be met over the 3 year rolling period or in respect of any other period.

The Fund will seek to achieve its objective through conservative investment in an actively managed and diversified portfolio of collective investment schemes, investment trusts, other listed securities, cash or near cash, deposits and money market instruments. The Fund will typically invest up to 35% of its portfolio in equity securities. The Fund may invest up to 20% in unregulated collective investment schemes.

There will be no restrictions on the underlying content of the investments held, in terms of investment type, geographical or economic sector.

Derivatives will not be used. Currency hedging transactions, including investing in hedged share classes, may be used where appropriate, in order to mitigate against the effects of changes in currency exchange rates against the Fund's base currency which is pounds sterling. Borrowing of up to 10% of the Fund's net asset value will be permitted.

The Fund's benchmark is IA Mixed Investment 0-35% Shares. This represents a comparator benchmark because the Fund's performance can be compared to funds which also sit within this industry sector.

### Performance†

Percentage growth from 10 years to 31 May 2023

Discrete period performance (%)	Year to 31 May 2023	Year to 31 May 2022	Year to 31 May 2021	Year to 31 May 2020	Year to 31 May 2019
