Fund manager's commentary

Global equities rose 3.41% in sterling and US stocks outperformed, up 5.26% as Congress raised the public sector debt ceiling and expectations, confirmed in November, grew that it would enact \$1 trillion of fiscal easing. US technology stocks did even better, up 7.18% in sterling, but the WAY Global Cautious Portfolio's Polar Capital Global Technology holding gained only 3.08%. UK stocks underperformed, up 2.31% as sterling strengthened. The Bank of England governor, Andrew Bailey, raised the possibility, ultimately unrealised, of an interest rate rise as early as November. The significant UK equity holdings lagged thanks to a bias towards smaller companies, which fell 0.54%, with Liontrust UK Micro Cap and Chelverton UK Equity Growth weakest, down 2.66% and 2.51% respectively. Equities in emerging markets and Asia excluding Japan fell 0.65% and 0.29% respectively in sterling. Fears of a default by Evergrande, a Chinese property developer, weighed on sentiment as third-quarter Chinese economic growth slowed to 4.9%. Within the portfolio, Baillie Gifford Pacific bucked the trend, rising 2.82%, but Hermes Asia ex-Japan Equity fell 3.12%. Japanese equities fell 5.11% in sterling as the yen fell 3.75% against the pound as the election victory of Fumio Kishida, the prime minister, brought increased monetary stimulus closer. Global bonds fell 1.87% in sterling but UK government and sterling investment-grade corporate bonds rose 2.42% and 0.44% respectively. Within the portfolio, the sterling-hedged PIMCO Global Real Return holding did best, up 1.59%. The WAY Global Cautious Portfolio rose 0.21%† in October while the sector rose 0.27%.

Brompton Asset Management

Investment objective & policy

The objective of the Fund is total investment return against the IA Mixed Investment 0-35% Shares sector over a 3 year rolling period. Capital invested in the Fund is at risk and there is no guarantee that the investment objective will be met over the 3 year rolling period or in respect of any other period.

The Fund will seek to achieve its objective through conservative investment in an actively managed and diversified portfolio of collective investment schemes, investment trusts, other listed securities, cash or near cash, deposits and money market instruments. The Fund will typically invest up to 35% of its portfolio in equity securities. The Fund may invest up to 20% in unregulated collective investment schemes.

There will be no restrictions on the underlying content of the investments held, in terms of investment type, geographical or economic sector.

Derivatives will not be used. Currency hedging transactions, including investing in hedged share classes, may be used where appropriate, in order to mitigate against the effects of changes in currency exchange rates against the Fund's base currency which is pounds sterling. Borrowing of up to 10% of the Fund's net asset value will be permitted.

The Fund's benchmark is IA Mixed Investment 0-35% Shares. This represents a comparator benchmark because the Fund's performance can be compared to funds which also sit within this industry sector.

Performance†
