Fund manager's commentary

Global equities rose 0.72% in local currencies but only 0.07% in sterling because of the pound's strength. Developed economy markets outperformed, with equities in the US, Europe excluding the UK and the UK rising 1.72%, 1.48% and 0.26% in sterling. The European Central Bank shifted monetary policy, moving to a 2% average inflation target in line with the Federal Reserve and implying inflation might exceed 2% for some time before monetary policy tightened. Within the WAY Global Growth Portfolio, both significant holdings, Threadneedle European Smaller Companies and BlackRock European Dynamic, outperformed, up 4.40% and 3.90% respectively. All but one UK equity holdings outperformed, with Liontrust UK Smaller Companies and Aberforth UK Small Companies doing best, up 4.19% and 3.34% respectively. Equities in Asia excluding Japan and emerging markets fell 8.04% and 7.27% respectively in sterling, led lower by Chinese equities, which fell 14.36% as investors took fright after Beijing banned education companies from making profits. Holdings in these markets were relatively resilient although Hermes Asia ex-Japan fell 6.97%. Goldman Sachs India Equity was added to the portfolio. Global bonds rose 0.68% in sterling. UK government bonds and sterling investment-grade corporate bonds returned 2.84% and 1.42% respectively, while sterling high-yield bonds trailed, returning 0.42%. Among significant holdings, Janus Henderson Strategic Bond did best, up 1.54%, while Schroder Strategic Credit returned 0.26%. Within the alternative investments, Trojan returned 2.54%. The WAY Global Growth Portfolio gained 0.29%† in July while the sector gained 0.50%.

Investment objective & policy

The objective of the Fund is to seek a high level of capital growth over a period of at least 5 years.

The Fund will seek to achieve its objective from an actively managed portfolio of collective investment schemes, investment trusts, other transferable securities, cash or near cash, deposits and money market instruments. The Fund will typically invest between 40% and 85% of its portfolio in equity securities.

There will be no restrictions on the underlying content of the investments held, in terms of investment type, geographical or economic sector.

The use of derivatives and/or hedging transactions will be permitted in connection with the efficient portfolio management of the Fund (typically hedging, which attempts to mitigate against falls in the value of the Fund's assets and the effects of changes in currency exchange rates against the Fund's base currency, which is pounds sterling). Borrowing of up to 10% of the Fund's net asset value will be permitted.

On giving 60 days notice to Shareholders, the Fund may, in addition to its other investment powers, use derivatives and forward transactions for investment purposes. It is not intended that the use of derivatives in this way will change the risk profile of the Fund.

Subject to the above, the Fund may invest in any asset class and adopt any investment technique or strategy permitted under the rules in COLL as such rules are applied to Non-UCITS retail schemes.

The Fund's benchmark is IA Mixed investment 40-85% shares. This represents a comparator benchmark because the Fund's performance can be compared to funds which also sit within this industry sector.

*Source: Lipper, NAV-NAV, sterling. The E Accumulation share class launched on 31 December 2012. Performance history prior to that date is that of the B Acc share class. The backdated performance is based upon the actual returns of the B Acc share class with no alteration for differing fee levels between these share classes.

† Brompton took over management of the fund on 1 May 2017.

†† Prior to October 2018, the Fund was included in the IA Flexible Investment sector. At times, this may have enabled the Fund to hold more or less equities than peers in the IA Mixed Investment 40-85% Shares sector, which may have led to better comparative performance. Our review of the comparative data does not show that there is a material difference in the performance of the respective sectors.

Past performance is not an indicator of future performance.

Important information

For full details of the fund and its risks please refer to the prospectus or Key Investor Information and Supplementary Information Document, which can be found on the WAY Fund Manager's website, www.wayfunds.com. The value of assets and income generated from them may fall as well as rise. Investors are unlikely to receive income and, on disposal, may not receive all their capital back. Past performance is not an indicator of future performance.
