forecasting 13% inflation and a fourth-quarter economic contraction. Global equities and global bonds rose 6.80% and 1.92% respectively in sterling because signs of weaker economic activity might result in interest rates peaking sooner than investors had anticipated. Global growth stocks outperformed, up 9.95% in sterling, fuelled by the US technology sector's 11.59% rise. Among the WAY Global Growth Portfolio's significant growth-oriented holdings, Polar Capital Global Technology, Baillie Gifford Japanese Smaller Companies and Blackrock European Dynamic did best, up 10.18%, 9.26% and 9.17% respectively. By contrast, the value-oriented Lightman European holding lagged, falling 2.28%. Amongst the portfolio's defensively-positioned global equity holdings, the Xtrackers MSCI World Health Care exchange-traded fund (ETF) and Polar Capital Global Insurance also underperformed, gaining 3.05% and falling 0.87% respectively. BROMPTON ASSET MANAGEMENT

Investment objective & policy

The objective of the Fund is to seek a high level of capital growth over a period of at least 5 years.

The Fund will seek to achieve its objective from an actively managed portfolio of collective investment schemes, investment trusts, other transferable securities, cash or near cash, deposits and money market instruments. The Fund will typically invest between 40% and 85% of its portfolio in equity securities.

There will be no restrictions on the underlying content of the investments held, in terms of investment type, geographical or economic sector.

The use of derivatives and/or hedging transactions will be permitted in connection with the efficient portfolio management of the Fund (typically hedging, which attempts to mitigate against falls in the value of the Fund's assets and the effects of changes in currency exchange rates against the Fund's base currency, which is pounds sterling). Borrowing of up to 10% of the Fund's net asset value will be permitted.

On giving 60 days notice to Shareholders, the Fund may, in addition to its other investment powers, use derivatives and forward transactions for investment purposes. It is not intended that the use of derivatives in this way will change the risk profile of the Fund.

Subject to the above, the Fund may invest in any asset class and adopt any investment technique or strategy permitted under the rules in COLL as such rules are applied to Non-UCITS retail schemes.

The Fund's benchmark is IA Mixed investment 40-85% shares. This represents a comparator benchmark because the Fund's performance can be compared to funds which also sit within this industry sector.

+ Brompton took over management of the fund on 1 May 2017.

†† Prior to October 2018, the Fund was included in the IA Flexible Investment sector. At times, this may have enabled the Fund to hold more or less equities than peers in the IA Mixed Investment 40-85% Shares sector, which may have led to better comparative performance. Our review of the comparative data does not show that there is a material difference in the performance of the respective sectors.
