Fund manager's commentary

The Federal Reserve increased its interest rate by a quarter percentage point to 5.25-5.5% and US inflation slowed to 3.0%, raising hopes that peak rates may be close. UK inflation remained stubbornly high at 7.9%, prompting the Bank of England to raise Bank Rate by a quarter point in August. Global equities rose 2.46% in sterling but global bonds fell 0.51%. Among the WAY Global Growth Portfolio's significant global equity holdings, Dimensional Global Targeted Value and the iShares Gold Producers exchange-traded fund did best, up 4.89% and 2.77%, respectively but Polar Capital Global Insurance gained only 1.05%. UK equities rose 2.55% and small companies outperformed, rising 4.24%. Higher interest rates may, however, affect economic activity and the UK equity allocation was reduced through reductions in Artemis UK Special Situations and Chelverton UK Equity Growth. UK government bonds, sterling investment-grade corporate bonds and sterling high-yield bonds returned 0.81%, 2.44% and 2.21% respectively. Within the portfolio, the sterling-hedged Redwheel Asia Convertibles holding and Schroder Strategic Credit rose 4.41% and 1.41% respectively while Jupiter Dynamic Bond rose 0.23%. Equities in emerging markets and Asia excluding Japan outperformed, up 5.03% and 4.94% respectively in sterling, with Chinese stocks, in particular, benefiting from Beijing's plans to support consumer spending as the growth boost delivered by the withdrawal of zero-Covid-19 policies wanes. Among the portfolio's significant holdings, Redwheel Global Emerging Markets did best, up 8.01%, but Stewart Investors Indian Subcontinent fell 0.66%. The WAY Global Growth Portfolio rose 1.63%† in July while the sector rose 1.73%.

WAY Global Growth Portfolio (continued)

An OEIC managed by
Brompton Asset Management

Investment objective & policy

The objective of the Fund is to seek a high level of capital growth over a period of at least 5 years.

The Fund will seek to achieve its objective from an actively managed portfolio of collective investment schemes, investment trusts, other transferable securities, cash or near cash, deposits and money market instruments. The Fund will typically invest between 40% and 85% of its portfolio in equity securities.

There will be no restrictions on the underlying content of the investments held, in terms of investment type, geographical or economic sector.

The use of derivatives and/or hedging transactions will be permitted in connection with the efficient portfolio management of the Fund (typically hedging, which attempts to mitigate against falls in the value of the Fund's assets and the effects of changes in currency exchange rates against the Fund's base currency, which is pounds sterling). Borrowing of up to 10% of the Fund's net asset value will be permitted.

On giving 60 days notice to Shareholders, the Fund may, in addition to its other investment powers, use derivatives and forward transactions for investment purposes. It is not intended that the use of derivatives in this way will change the risk profile of the Fund.

Subject to the above, the Fund may invest in any asset class and adopt any investment technique or strategy permitted under the rules in COLL as such rules are applied to Non-UCITS retail schemes.

The Fund's benchmark is IA Mixed investment 40-85% shares. This represents a comparator benchmark because the Fund's performance can be compared to funds which also sit within this industry sector.

For further information including details of all share classes please visit our website at www.bromptonam.com

*Source: Lipper, NAV-NAV, sterling. The E Accumulation share class launched on 31 December 2012. Performance history prior to that date is that of the B Acc share class. The backdated performance is based upon the actual returns of the B Acc share class with no alteration for differing fee levels between these share classes.

† Brompton took over management of the fund on 1 May 2017.

†† Prior to October 2018, the Fund was included in the IA Flexible Investment sector. At times, this may have enabled the Fund to hold more or less equities than peers in the IA Mixed Investment 40-85% Shares sector, which may have led to better comparative performance. Our review of the comparative data does not show that there is a material difference in the performance of the respective sectors.

Past performance is not an indicator of future performance.

Important information

For full details of the fund and its risks please refer to the prospectus or Key Investor Information and Supplementary Information Document, which can be found on the WAY Fund Manager's website, www.wayfunds.com. The value of assets and income generated from them may fall as well as rise. Investors are unlikely to receive income and, on disposal, may not receive all their capital back. Past performance is not an indicator of future performance.
