### Fund manager's commentary

Global equities fell 10.83% in sterling while bonds rose 0.70% as more countries moved into lock-down to combat Covid-19. The Federal Reserve and Bank of England cut interest rates to near zero and announced quantitative easing. The US and UK governments launched fiscal stimulus packages of \$2 trillion and £330 billion respectively to help businesses and households. The global economic falls will be sharp and large but should prove temporary and the monetary and fiscal measures may in time ensure a strong recovery. Oil prices fell 53.35% in sterling in response to the Russo-Saudi price war but lower energy costs may provide a further economic stimulus. UK equities lagged, falling 13.44%, while smaller companies did even worse, down 28.01%. Among the WAY Global Growth Portfolio's significant holdings, Liontrust Special Situations was relatively resilient, down 12.91%, but River & Mercantile UK Micro Cap fell 29.08%. The UK equity allocation increased through an addition to Fidelity Index UK. The actively-managed global equity investments outperformed, with Fundsmith Equity and Polar Capital Global Technology most resilient among the significant holdings, down 3.68% and 3.73% respectively. UK government bonds rose 1.59% but sterling corporate and high-yield bonds fell 7.52% and 13.19% respectively. Among the portfolio's significant investments, the sterling-hedged Vanguard Global Bond holding and Jupiter Dynamic Bond fell 1.86% and 4.84% respectively while Schroder Strategic Credit fell 11.19%. BlackRock European Absolute Alpha did best among the significant alternative investments, rising 2.16%. The WAY Global Growth Portfolio fell 12.07%<sup>†</sup> in March while the sector fell 11.15%.

## WAY Global Growth Portfolio<sup>#</sup> (continued)

An OEIC managed by  
Brompton Asset Management

### Investment objective & policy

The objective of the Fund is to seek a high level of capital growth over a period of at least 5 years.

The Fund will seek to achieve its objective from an actively managed portfolio of collective investment schemes, investment trusts, other transferable securities, cash or near cash, deposits and money market instruments. The Fund will typically invest between 40% and 85% of its portfolio in equity securities.

There will be no restrictions on the underlying content of the investments held, in terms of investment type, geographical or economic sector.

The use of derivatives and/or hedging transactions will be permitted in connection with the efficient portfolio management of the Fund (typically hedging, which attempts to mitigate against falls in the value of the Fund's assets and the effects of changes in currency exchange rates against the Fund's base currency, which is pounds sterling). Borrowing of up to 10% of the Fund's net asset value will be permitted.

On giving 60 days notice to Shareholders, the Fund may, in addition to its other investment powers, use derivatives and forward transactions for investment purposes. It is not intended that the use of derivatives in this way will change the risk profile of the Fund.

Subject to the above, the Fund may invest in any asset class and adopt any investment technique or strategy permitted under the rules in COLL as such rules are applied to Non-UCITS retail schemes.

The Fund's benchmark is IA Mixed investment 40-85% shares. This represents a comparator benchmark because the Fund's performance can be compared to funds which also sit within this industry sector.

\*Source: Lipper, NAV-NAV, sterling. The E Accumulation share class launched on 31 December 2012. Performance history prior to that date is that of the B Acc share class. The backdated performance is based upon the actual returns of the B Acc share class with no alteration for differing fee levels between these share classes.

<sup>†</sup> Brompton took over management of the fund on 1 May 2017.

<sup>††</sup> Prior to October 2018, the Fund was included in the IA Flexible Investment sector. At times, this may have enabled the Fund to hold more or less equities than peers in the IA Mixed Investment 40-85% Shares sector, which may have led to better comparative performance. Our review of the comparative data does not show that there is a material difference in the performance of the respective sectors.

Past performance is not an indicator of future performance.

### Important information

For full details of the fund and its risks please refer to the prospectus or Key Investor Information and Supplementary Information Document, which can be found on the WAY Fund Manager's website, [www.wayfunds.com](http://www.wayfunds.com). The value of assets and income generated from them may fall as well as rise. Investors are unlikely to receive income and, on disposal, may not receive all their capital back. Past performance is not an indicator of future performance.
