WAY Global Growth Portfolio Fund , a sub fund of WAY Global Growth Portfolio Fund

WAY Global Growth Portfolio C Inc (ISIN GB00BQNKFG91)

The Fund is managed by WAY Fund Managers Limited

Investment Objective and Investment Policy

Objective:

The objective of the Fund is to seek a high level of capital growth over a period of at least 5 years.

Policy:

The Fund will seek to achieve its investment objective from an actively managed portfolio of collective investment schemes, investment trusts, other transferable securities, cash or near cash, deposits and money market instruments.

The Fund will typically invest between 40% and 85% of its portfolio in equity securities.

There will be no restrictions on the underlying content of the investments held, in terms of investment type, geographical or economic sector.

The use of derivatives and/or hedging transactions will be permitted in connection with the efficient portfolio management of the Fund (typically hedging, which attempts to mitigate against falls in the value of the Fund's assets and the effects of changes in currency exchange rates against the Fund's base currency, which is pounds sterling). Borrowing of up to 10% of the Fund's net asset value will be permitted.

The Fund may invest in any asset class and adopt any investment technique or strategy permitted for Non-UCITS retail schemes under the Regulations.

Benchmark:

The appropriate comparator benchmark against which the performance of the Fund can be measured is the Investment Association's (IA) Mixed Investment 40-85% Shares sector.

Other information:

- Investment in the Fund should be regarded as long-term, which is at least five years.
- There can be no guarantee that the objective of the Fund will be achieved.
- On encashment, particularly in the short-term, you may receive less than the original amount invested.
- In relation to share classes where there is an Entry Charge (see overleaf), the charge is deducted from your investment at the outset. Therefore, an equivalent rise in the value of shares is required before the original investment can be recovered. Various other charges accrue daily, therefore an equivalent rise in the value of units is required before the original investment can be recovered.
- The Authorised Corporate Director (ACD) carries out investors' requests, to buy, sell or switch, at 12:00 hours (UK time) on each business day (which excludes public holidays). If the ACD receives a request after 12:00 hours (UK time), the ACD will deal with it on the next business day.
- As you hold income shares, income from investments in the Fund will be paid out to you once a year.

Risk and Reward Profile

- The Class C Shares above appear as a "5" on the scale. This is because the Fund by its nature has exposure to equity securities which can experience high rises and falls in value.
 - This indicator is based on historical data and may not be a reliable indication of the future risk profile of the Fund
 - The risk and reward category shown is not guaranteed to remain unchanged and may shift over time.
 - The lowest category does not mean 'risk free'.
 - The Fund does not provide its investors with any guarantee on performance, nor on monies invested in it.
- In addition to the risk captured by the indicator, the overall fund value may be considerably affected by the following risks:

- The Fund invests indirectly in some overseas markets which carry a higher than average risk of investment and the Fund may have problems or delays in getting its investments back.
- Investments may be made in assets denominated in various currencies and the movements of exchange rates may have an effect, unfavourable as well as favourable, on the gains and losses otherwise experienced on such investments.
- The Fund could lose money if a counterparty with which it interacts becomes unwilling or unable to meet its obligations to the Fund.
- The Fund will bear, along with the other investors, its portion of the fees and expenses of any other collective investment scheme it invests in. These fees will be in addition to the management fees and other expenses which the Fund bears directly with its own operations.
- The Fund is classed as a Non-UCITS Retail Scheme (NURS) and can have wider investment and borrowing powers than a UCITS scheme with higher investment limits in various areas. It can also invest to a greater extent in areas such as property and unregulated schemes and have the option to borrow on a permanent basis. Such additional powers can increase potential reward, but may also increase risk.
