Launch date	1 November 2022
Launch price	100p
Price at 28 February 2026	146.14p
Minimum investment	£5,000
Investment management fee	0.65%
Total expense ratio	1.62%
SEDOL code	BQNKFG9
ISIN code	GB00BQNKFF84

C class shares are available for WTL investors paying trust fees directly to WTL.

WAY Global Growth Portfolio

An OEIC managed by Brompton Asset Management

Fund manager's commentary

Global equities and bonds rose 3.41% and 3.21% respectively in sterling. Donald Trump imposed a 15% global tariff following the US Supreme Court's ruling against his earlier tariffs. US and UK inflation was lower than expected. US equities lagged, rising 1.29% in sterling, dragged down by technology stocks, which fell 2.99% amid fears about the scale of artificial intelligence capital spending. Within the WAY Global Growth Portfolio, HSBC S&P 500 Equal Weight Equity outperformed, up 5.18% thanks to its underweight exposure to large technology stocks. UK equities rose 6.60%, fuelled by strength among natural resources stocks, but smaller companies rose only 1.49%. Within the portfolio, Artemis UK Special Situations gained only 1.98%, held back by its holdings in smaller companies. Equities in Asia excluding Japan and emerging markets rose 8.08% and 7.69% in sterling respectively and the portfolio benefitted from its overweight allocation. Japanese equities rose 11.41% in sterling following the election victory of the prime minister, Sanae Takaichi, who promised fiscal stimulus. Man Japan CoreAlpha and Nippon Active Value outperformed, rising 13.66% and 11.76% respectively. Within the bond allocation, the iShares \$ Treasury Bond 1-3 Year exchange-traded fund (ETF) returned 2.62% as the dollar strengthened but the sterling-hedged iShares \$ TIPS 0-5 Years ETF holding rose only 0.36%. The iShares Physical Gold exchange-traded commodity rose 6.98% as geopolitical tensions rose and tensions increased further after the month end when the US and Israel attacked Iran. The WAY Global Growth Portfolio rose 4.26% in February while the sector rose 3.07%.

BROMPTON

ASSET MANAGEMENT

Investment objective & policy

The objective of the Fund is to seek a high level of capital growth over a period of at least 5 years.

The Fund will seek to achieve its objective from an actively managed portfolio of collective investment schemes, investment trusts, other transferable securities, cash or near cash, deposits and money market instruments. The Fund will typically invest between 40% and 85% of its portfolio in equity securities.

There will be no restrictions on the underlying content of the investments held, in terms of investment type, geographical or economic sector.

The use of derivatives and/or hedging transactions will be permitted in connection with the efficient portfolio management of the Fund (typically hedging, which attempts to mitigate against falls in the value of the Fund's assets and the effects of changes in currency exchange rates against the Fund's base currency, which is pounds sterling). Borrowing of up to 10% of the Fund's net asset value will be permitted.

On giving 60 days notice to Shareholders, the Fund may, in addition to its other investment powers, use derivatives and forward transactions for investment purposes. It is not intended that the use of derivatives in this way will change the risk profile of the Fund.

Subject to the above, the Fund may invest in any asset class and adopt any investment technique or strategy permitted under the rules in COLL as such rules are applied to Non-UCITS retail schemes.

The Fund's benchmark is IA Mixed investment 40-85% shares. This represents a comparator benchmark because the Fund's performance can be compared to funds which also sit within this industry sector.

*Source: LSEG Lipper, NAV-NAV, sterling. The E Accumulation share class launched on 31 December 2012. Performance history prior to that date is that of the B Acc share class. The backdated performance is based upon the actual returns of the B Acc share class with no alteration for differing fee levels between these share classes. † Brompton took over management of the fund on 1 May 2017. †† Prior to October 2018, the Fund was included in the IA Flexible Investment sector. At times, this may have enabled the Fund to hold more or less equities than peers in the IA Mixed Investment 40-85% Shares sector, which may have led to better comparative performance. Our review of the comparative data does not show that there is a material difference in the performance of the respective sectors.

Past performance is not an indicator of future performance.

Important Information

For full details of the fund and its risks please refer to the prospectus or Key Investor Information and Supplementary Information Document, which can be found on the Brompton Asset Management website, www.bromptonam.com. The value of assets and income generated from them may fall as well as rise. Investors are unlikely to receive income and, on disposal, may not receive all their capital back. Past performance is not an indicator of future performance.
