ISIN code	GB00BQNKFF84

C class shares are available for WTL investors paying trust fees directly to WTL.

WAY Global Growth Portfolio

An OEIC managed by Brompton Asset Management

Fund manager's commentary

Global equities rose 0.78% in sterling as Middle East peace talks contributed to a 17.19% fall in the oil price despite Iranian attacks on ships in the Strait of Hormuz. Equities in emerging markets and Asia excluding Japan underperformed, up 0.17% and 0.29% in sterling respectively, but Indian stocks did better, rising 3.12% in response to consumption-led economic growth. Within the WAY Global Growth Portfolio, Chikara Indian Subcontinent outperformed, up 7.80%, and the holding was increased. Japanese equities also lagged, up 0.52% in sterling and Nippon Active Value did worse, falling 2.44%. The portfolio's allocation was increased through the addition of Baillie Gifford Japanese Smaller Companies, which may benefit from the pro-growth reforms of Sanae Takaichi, the prime minister. Japanese exports have benefited from yen weakness stemming from ultra-loose monetary policy but rising interest rates may stabilise the yen and increase the attractions of domestic investment. Technology stocks fell 0.75% in sterling as the SpaceX flotation tapped investors for cash. Within the US allocation, the Xtrackers S&P 500 exchange-traded fund rose 0.57% but the Xtrackers S&P 500 Equal Weight ETF did better, rising 3.92% thanks to its relatively-low weightings in technology stocks. Among the portfolio's global holdings, Polar Capital Global Technology, up 3.37%, was aided by investor enthusiasm for artificial intelligence infrastructure suppliers. In fixed income, the iShares ETFs, \$ Treasury Bond 0-1 Year and \$ Treasury Bond 1-3 Years, outperformed, rising 1.83% and 1.62% respectively. The WAY Global Growth Portfolio rose 0.65% in June while the sector rose 0.51%.

BROMPTON

ASSET MANAGEMENT

Investment objective & policy

The objective of the Fund is to seek a high level of capital growth over a period of at least 5 years.

The Fund will seek to achieve its objective from an actively managed portfolio of collective investment schemes, investment trusts, other transferable securities, cash or near cash, deposits and money market instruments. The Fund will typically invest between 40% and 85% of its portfolio in equity securities.

There will be no restrictions on the underlying content of the investments held, in terms of investment type, geographical or economic sector.

The use of derivatives and/or hedging transactions will be permitted in connection with the efficient portfolio management of the Fund (typically hedging, which attempts to mitigate against falls in the value of the Fund's assets and the effects of changes in currency exchange rates against the Fund's base currency, which is pounds sterling). Borrowing of up to 10% of the Fund's net asset value will be permitted.

On giving 60 days notice to Shareholders, the Fund may, in addition to its other investment powers, use derivatives and forward transactions for investment purposes. It is not intended that the use of derivatives in this way will change the risk profile of the Fund.

Subject to the above, the Fund may invest in any asset class and adopt any investment technique or strategy permitted under the rules in COLL as such rules are applied to Non-UCITS retail schemes.

The Fund's benchmark is IA Mixed investment 40-85% shares. This represents a comparator benchmark because the Fund's performance can be compared to funds which also sit within this industry sector.

For further information including details of all share classes please visit our website at www.bromptonam.com

*Source: LSEG Lipper, NAV-NAV, sterling. The E Accumulation share class launched on 31 December 2012. Performance history prior to that date is that of the B Acc share class. The backdated performance is based upon the actual returns of the B Acc share class with no alteration for differing fee levels between these share classes. † Brompton took over management of the fund on 1 May 2017. †† Prior to October 2018, the Fund was included in the IA Flexible Investment sector. At times, this may have enabled the Fund to hold more or less equities than peers in the IA Mixed Investment 40-85% Shares sector, which may have led to better comparative performance. Our review of the comparative data does not show that there is a material difference in the performance of the respective sectors.

Past performance is not an indicator of future performance.

Important Information

For full details of the fund and its risks please refer to the prospectus or Key Investor Information and Supplementary Information Document, which can be found on the Brompton Asset Management website, www.bromptonam.com. The value of assets and income generated from them may fall as well as rise. Investors are unlikely to receive income and, on disposal, may not receive all their capital back. Past performance is not an indicator of future performance.
