Fund manager's commentary

Global equities fell 3.48% in sterling, with bigger falls in some overseas markets masked by sterling weakness against the dollar. Inflation, monetary tightening and slowing economic growth hurt sentiment. US technology stocks and global growth stocks more broadly underperformed, falling 8.93% and 6.83% respectively in sterling. Within the WAY MA Cautious Portfolio, Polar Capital Global Technology fell 9.87%. Equities in Europe excluding the UK fell 1.65% in sterling but BlackRock European Dynamic fell 7.89% because of its growth-stock bias. Global bonds fell 0.87% in sterling while UK government bonds, investment-grade corporate bonds and high-yield bonds fell 2.84%, 3.15% and 2.03% respectively. The sterling-hedged PIMCO Global Low Duration Real Return holding rose 0.18% because of its bias towards shorter-dated and inflation-linked bonds but the sterling-hedged Vanguard Global Bond holding and Jupiter Dynamic Bond fell 3.22% and 2.65% respectively. The dollar strengthened 4.87% against sterling as the Federal Reserve remained hawkish while oil rose 10.07% in sterling as the Ukraine war exacerbated undersupply. The Xtrackers MSCI World Energy exchange-traded fund (ETF) outperformed, up 3.32%, but BGF World Mining fell 4.41%. BGF Natural Resources Growth & Income was added. The iShares Physical Gold exchange-traded commodity rose 3.19% in response to safe-haven buying. UK equities outperformed, rising 1.00% because of the London market's energy-sector bias, but smaller stocks fell 1.72%. Within the portfolio, the iShares FTSE 100 ETF rose 0.73% but Artemis UK Special Situations fell 2.45%. The WAY MA Cautious Portfolio fell 1.96%† in April while the sector fell 1.83%.

WAY MA Cautious Portfolio (continued)

An OEIC managed by
Brompton Asset Management

Investment objective & policy

The objective of the Fund is to seek capital growth.

The Fund will seek to achieve its objective from an actively managed portfolio of collective investment schemes, investment trusts, other transferable securities including listed securities, cash or near cash, deposits and money market instruments. The Fund will typically invest between 20% and 60% of its portfolio in equity securities.

There will be no restrictions on the underlying content of the investments held, in terms of investment type, geographical or economic sector.

The use of derivatives and/or hedging transactions will be permitted in connection with the efficient portfolio management of the Fund (typically hedging, including investing in hedged share classes, which attempts to mitigate against falls in the value of the Fund's assets and the effects of changes in currency exchange rates against the Fund's base currency, which is pounds sterling). Borrowing of up to 10% of the Fund's net asset value will be permitted.

On giving 60 days notice to Shareholders, the Fund may, in addition to its other investment powers, use derivatives and forward transactions for investment purposes. It is not intended that the use of derivatives in this way will change the risk profile of the Fund.

Subject to the above, the Fund may invest in any asset class and adopt any investment technique or strategy permitted under the rules in COLL as such rules are applied to Non-UCITS retail schemes.

The Fund's benchmark is IA Mixed Investment 20-60% Shares. This represents a comparator benchmark because the Fund's performance can be compared to funds which also sit within this industry sector.

For further information including details of all share classes please visit our website at www.bromptonam.com
