Fund manager's commentary

Stronger-than-anticipated economic data suggested interest rates would remain higher for longer. In response, global bonds and equities fell 1.69% and 1.19% respectively in sterling and the dollar rose 1.69% against the pound. Among the WAY MA Cautious Portfolio's global equity holdings, Polar Capital Global Technology, Polar Capital Global Insurance and Dimensional Global Targeted Value, outperformed, up 1.77%, 0.94% and 0.47% respectively. Weakness in the gold price led, however, to a 12.26% fall for the iShares Gold Producers exchange-traded fund. Equities in Asia excluding Japan and emerging markets fell 5.24% and 4.90% respectively in sterling on dollar-strength and fears of tighter monetary policies. The portfolio's three significant holdings, Redwheel Global Emerging Markets, Baillie Gifford Pacific and Baillie Gifford Emerging Markets Growth, lagged, down 6.78% and 6.15% and 6.08% respectively. The UK economy grew 0.3% in January, beating expectations, and UK equities outperformed, up 1.75%, although small stocks gained only 1.15%. Among significant holdings, Artemis UK Special Situations and Liontrust Special Situations did best, up 2.28% and 1.94% respectively, but Liontrust UK Smaller Companies fell 0.82%. Equities in Europe excluding the UK gained 0.81% in sterling and BGF Continental European outperformed, up 3.27%. In Japan, where equities fell 2.00% in sterling, Lindsell Train Japanese Equity suffered the most, down 4.93%, but Man GLG Japan CoreAlpha outperformed, up 0.38%. Within the portfolio's alternative allocation, Blackrock European Absolute Alpha gained 0.95% but Trojan fell 1.04%. The WAY MA Cautious Portfolio fell 0.98%† in February while the sector fell 0.85%.

WAY MA Cautious Portfolio (continued)

An OEIC managed by
Brompton Asset Management

Investment objective & policy

The objective of the Fund is to seek capital growth.

The Fund will seek to achieve its objective from an actively managed portfolio of collective investment schemes, investment trusts, other transferable securities including listed securities, cash or near cash, deposits and money market instruments. The Fund will typically invest between 20% and 60% of its portfolio in equity securities.

There will be no restrictions on the underlying content of the investments held, in terms of investment type, geographical or economic sector.

The use of derivatives and/or hedging transactions will be permitted in connection with the efficient portfolio management of the Fund (typically hedging, including investing in hedged share classes, which attempts to mitigate against falls in the value of the Fund's assets and the effects of changes in currency exchange rates against the Fund's base currency, which is pounds sterling). Borrowing of up to 10% of the Fund's net asset value will be permitted.

On giving 60 days notice to Shareholders, the Fund may, in addition to its other investment powers, use derivatives and forward transactions for investment purposes. It is not intended that the use of derivatives in this way will change the risk profile of the Fund.

Subject to the above, the Fund may invest in any asset class and adopt any investment technique or strategy permitted under the rules in COLL as such rules are applied to Non-UCITS retail schemes.

The Fund's benchmark is IA Mixed Investment 20-60% Shares. This represents a comparator benchmark because the Fund's performance can be compared to funds which also sit within this industry sector.
