### Fund manager's commentary

Global equities and bonds fell 4.09% and 1.78% respectively in local currencies but fell 2.10% and gained 0.25% respectively in sterling as the pound fell 2.03% against the dollar. The prospect of higher, more persistent US and UK inflation prompted more hawkish guidance from the Federal Reserve and Bank of England. UK government bonds and sterling investment-grade corporate bonds fell 3.86% and 2.30% respectively although sterling high-yield bonds rose 0.05%. The WAY MA Cautious Portfolio's bond holdings benefited from a bias towards shorter-duration and inflation-linked bonds. The sterling-hedged PIMCO Global Low Duration Real Return holding gained 0.09% while the sterling-hedged Legg Mason Western Asset Macro Opportunities Bond holding fell 1.02%. Sterling-weakness contributed to outperformance by UK stocks, which were unchanged. Of the significant holdings, Aberforth UK Smaller Companies and Liontrust Special Situations were weakest, down 4.33% and 2.07% respectively, while Liontrust UK Micro Cap and Chelverton UK Equity Growth outperformed, rising 1.11% and 0.16% respectively. Equities in Europe excluding the UK fell 3.51% in sterling and the portfolio's holdings lagged. Janus Henderson European Smaller Companies holding was added. In the US, where equities fell 2.68% in sterling, Vulcan Value Equity outperformed, down 0.54%. Japanese equities outperformed, up 4.88% in sterling following Yoshihide Suga's resignation as premier. Man GLG Japan CoreAlpha did better, up 6.20%, but T Rowe Price Japanese Equity lagged, up 2.96%. The iShares Physical Gold exchange-traded commodity fell 1.99%. The WAY MA Cautious Portfolio fell 0.73%† in September while the sector fell 1.23%. Financial data source: Refinitiv 30 September 2021. † E Inc share

## WAY MA Cautious Portfolio (continued)

An OEIC managed by  
Brompton Asset Management

### Investment objective & policy

The objective of the Fund is to seek capital growth.

The Fund will seek to achieve its objective from an actively managed portfolio of collective investment schemes, investment trusts, other transferable securities including listed securities, cash or near cash, deposits and money market instruments. The Fund will typically invest between 20% and 60% of its portfolio in equity securities.

There will be no restrictions on the underlying content of the investments held, in terms of investment type, geographical or economic sector.

The use of derivatives and/or hedging transactions will be permitted in connection with the efficient portfolio management of the Fund (typically hedging, including investing in hedged share classes, which attempts to mitigate against falls in the value of the Fund's assets and the effects of changes in currency exchange rates against the Fund's base currency, which is pounds sterling). Borrowing of up to 10% of the Fund's net asset value will be permitted.

On giving 60 days notice to Shareholders, the Fund may, in addition to its other investment powers, use derivatives and forward transactions for investment purposes. It is not intended that the use of derivatives in this way will change the risk profile of the Fund.

Subject to the above, the Fund may invest in any asset class and adopt any investment technique or strategy permitted under the rules in COLL as such rules are applied to Non-UCITS retail schemes.

The Fund's benchmark is IA Mixed Investment 20-60% Shares. This represents a comparator benchmark because the Fund's performance can be compared to funds which also sit within this industry sector.
