Authorised Corporate Director's ("ACD") Report

We are pleased to present the Annual Report & Audited Financial Statements for WAY MA Portfolio for the year ended 31 March 2025.

Authorised Status

WAY MA Portfolio ("the Company") is an open-ended investment company with variable capital ("ICVC") incorporated in England and Wales under registered number IC000660 and authorised by the Financial Conduct Authority ("FCA"), with effect from 30 May 2008. The Company has an unlimited duration.

Shareholders are not liable for the debts of the Company.

Head Office: the Head Office of the Company is at Cedar House, 3 Cedar Park, Cobham Road, Wimborne, Dorset BH21 7SB.

The Head Office is the address of the place in the UK for service on the Company of notices or other documents required or authorised to be served on it.

Structure of the Company

The Company is structured as an umbrella company, in that different Funds may be established from time to time by the ACD with the approval of the FCA. On the introduction of any new Fund or Share Class, a revised prospectus will be prepared setting out the relevant details of each Fund or Share Class.

The Company is a Non-UCITS Retail Scheme ("NURS").

The assets of each Fund will be treated as separate from those of every other Fund and will be invested in accordance with the Investment Objective and Investment Policy applicable to that Fund. Investment of the assets of each of the Funds must comply with the FCA's Collective Investment Schemes Sourcebook ("COLL"), the FCA's Investment Funds Sourcebook ("FUND") and the Investment Objective and Policy of each of the relevant Funds.

Currently the Company has two Funds and one, WAY Absolute Return Portfolio Fund, is in the process of termination. In the future there may be other Funds established.

Under the Alternative Investment Fund Managers Directive ("AIFMD") we are required to disclose remuneration information (see page 56) in regards to those individuals whose actions have a material impact on the risk profile of the Company.

Crossholdings

There were no Shares in any Fund held by any other Fund of the Company.

Termination of WAY Absolute Return Portfolio Fund

There is very low demand for the WAY Absolute Return Portfolio Fund's remaining assets. Markets are monitored daily and the ACD is applying fair value pricing to the remaining assets.

As the situation changes the ACD will continue to act and inform Shareholders in accordance with the requirements outlined in the Financial Conduct Authority's Handbook of Rules and Guidance.

The ACD continues to strive to complete the termination of this sub-fund at the earliest possible opportunity but is unable to provide a timeline as it will be dependent on the availability of suitable offers for the remaining assets, in order to realise an acceptable level of capital in the best interests of all investors.

Important events during the Year

On 1 July 2024, C. Oliver resigned as a Director of WAY Fund Managers Limited ("WFM").

On 7 October 2024, A. Dean was appointed as a Director of WFM.

Important events after the Year End

There have been no events after the year end, which may have had a material impact, nor required disclosure, on these Financial Statements.

Authorised Corporate Director's ("ACD") Report (continued)

Assessment of Value

The Financial Conduct Authority (FCA), the regulator for Financial Services, in its goal to provide transparency to investors, requires all Authorised Fund Managers (AFMs) to produce an Assessment of Value (AoV) for money offered by each share class in each fund or sub-fund under their management. Broadly speaking, an Assessment of Value requires the AFM to consider a combination of factors, including, but not limited to the quality of service provided to investors, the performance of the fund, the cost of investing in the fund, whether economies of scale can be achieved, comparable market rates and services and classes of units. WFM has chosen to publish the AoV separate to the Fund's annual report. This will be available within four months of the annual accounting end date of 31 March 2025, and can be found on WFM's website, at:

https://www.wayfunds.com/Sponsors/BromptonAssetManagementLLP_AoV

There is no AoV undertaken in relation to WAY Absolute Return Portfolio Fund, which is in the process of termination.

Going Concern Assessment

The ACD's Directors are currently of the opinion that it is appropriate for WAY MA Cautious Portfolio Fund to continue to adopt the going concern basis in the preparation of its Financial Statements. WAY MA Cautious Portfolio Fund's assets currently remain readily realisable, and accordingly, the ACD's Directors believe that the Fund has adequate resources to continue in operational existence for the foreseeable future.

WAY Absolute Return Portfolio Fund is in termination, and as such the Financial Statement of the sub fund is prepared on a basis other than that of a going concern.

Base Currency

The base currency of the Company is Pounds Sterling.

Share Capital

The minimum Share Capital of the Company is £1 and the maximum is £100,000,000,000. Shares in the Company have no par value. The Share Capital of the Company at all times equals the sum of the Net Asset Values of each of the Funds.

WAY MA Portfolio

Certification of Financial Statements by Directors of the ACD For the year ended 31 March 2025

Directors' Certification

This report has been prepared in accordance with the requirements of COLL and FUND, as issued and amended by the FCA. We hereby certify the report on behalf of the Directors of WAY Fund Managers Limited.

The Directors are of the opinion, unless it is stated differently in the ACD report, that it is appropriate to continue to adopt the going concern basis in the preparation of these Financial Statements as the assets of the WAY MA Cautious Portfolio Fund consist predominantly of securities that are readily realisable, and accordingly, the sub-fund has adequate resources to continue in operational existence for the foreseeable future.

WAY Absolute Return Portfolio Fund is in termination, and as such the Financial Statement of the sub-fund is prepared on a basis other than that of a going concern.

V. Hoare
CEO

WAY Fund Managers Limited

31 July 2025

Statement of the ACD's Responsibilities For the year ended 31 March 2025

The Authorised Corporate Director ("ACD") of WAY MA Portfolio ("the Company") is responsible for preparing the Annual Report and the Audited Financial Statements in accordance with the Open-Ended Investment Companies Regulations 2001 ("the OEIC Regulations"), the FCA's Collective Investment Schemes Sourcebook ("COLL"), the FCA's Investment Funds Sourcebook ("FUND") and the Company's Instrument of Incorporation.

The OEIC Regulations and COLL require the ACD to prepare Financial Statements for each annual accounting period which:

- are in accordance with United Kingdom Generally Accepted Accounting Practice ("United Kingdom Accounting Standards and applicable law"), including FRS 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" and the Statement of Recommended Practice: "Financial Statements of UK Authorised Funds" issued by the Investment Association ("SORP") in May 2014; and
- give a true and fair view of the financial position of the Company and each of its sub-funds as at the end of that year and the net expense and the net capital gains on the property of the Company and each of its sub-funds for that year.

In preparing the Financial Statements, the ACD is required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- state whether applicable UK Accounting Standards and the SORP have been followed, subject to any material departures disclosed and explained in the Financial Statements; and
- prepare the Financial Statements on the going concern basis unless it is inappropriate to presume that the Company will continue in operation.

The ACD is responsible for keeping proper accounting records that disclose with reasonable accuracy at any time the financial position of the Company and enable them to ensure that the Financial Statements comply with the applicable SORP and United Kingdom Accounting Standards and applicable law. The ACD is also responsible for the system of internal controls, for safeguarding the assets of the Company and for taking reasonable steps for the prevention and detection of fraud and other irregularities.

In accordance with COLL 4.5.8BR and FUND 3.3.2R, the Annual Report and the Audited Financial Statements were approved by the Board of Directors of the ACD of the Company and authorised for issue on 31 July 2025.

Statement of the Depositary's Responsibilities For the year ended 31 March 2025

The Depositary must ensure that the Company is managed in accordance with the Financial Conduct Authority's Collective Investment Schemes Sourcebook, and the Investment Funds Sourcebook, the Open-Ended Investment Companies Regulations 2001 (SI 2001/1228), as amended, the Financial Services and Markets Act 2000, as amended, (together "the Regulations"), the Company's Instrument of Incorporation and Prospectus (together "the Scheme documents") as detailed below.

The Depositary must in the context of its role act honestly, fairly, professionally, independently and in the interests of the Company and its investors.

The Depositary is responsible for the safekeeping of all custodial assets and maintaining a record of all other assets of the Company in accordance with the Regulations.

The Depositary must ensure that:

- the Company's cash flows are properly monitored and that cash of the Company is booked into the cash accounts in accordance with the Regulations;
- the sale, issue, repurchase, redemption and cancellation of shares are carried out in accordance with the Regulations;
- the value of shares of the Company are calculated in accordance with the Regulations;
- any consideration relating to transactions in the Company's assets is remitted to the Company within the usual time limits;
- the Company's income is applied in accordance with the Regulations; and
- the instructions of the Alternative Investment Fund Manager ("the AIFM") are carried out (unless they conflict with the Regulations).

Report of the Depositary to the Shareholders of the Company For the year ended 31 March 2025

The Depositary also has a duty to take reasonable care to ensure that the Company is managed in accordance with the Scheme documents and the Regulations in relation to the investment and borrowing powers applicable to the Company.

Having carried out such procedures as we consider necessary to discharge our responsibilities as Depositary of the Company, it is our opinion, based on the information available to us and the explanations provided, that in all material respects the Company, acting through the AIFM:

- (i) has carried out the issue, sale, redemption and cancellation, and calculation of the price of the Company's shares and the application of the Company's income in accordance with the Regulations, the Scheme documents of the Company, and
- (ii) has observed the investment and borrowing powers and restrictions applicable to the Company.

Independent Auditor's Report to the Shareholders of WAY MA Portfolio For the year ended 31 March 2025

Report on the audit of the financial statements

Opinion

We have audited the financial statements of WAY MA Portfolio ("the Company") and its sub-funds for the year ended 31 March 2025 which comprise the statement of total return, the statement of change in net assets attributable to shareholders, the balance sheet, notes to the financial statements, including significant accounting policies and the distribution table. The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards, including FRS 102 The Financial Reporting Standard applicable in the UK and Republic of Ireland (United Kingdom Generally Accepted Accounting Practice), the Statement of Recommended Practice: "Financial Statements of UK Authorised Funds" issued by the Investment Association May 2014 and amended in June 2017 (the Statement of Recommended Practice), the FCA's Collective Investment Schemes Sourcebook ("COLL"), the and the Company's Instrument of Incorporation.

In our opinion, the financial statements:

- give a true and fair view of the state of WAY MA Portfolio and its sub-funds' affairs as at 31 March 2025 and of the net expense and the net capital gains on the property of the sub-funds for the year then ended; and
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice, the Statement of Recommended Practice, the FCA's Collective Investment Schemes Sourcebook ("COLL"), and the Company's Instrument of Incorporation.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the financial statements section of our report. We are independent of the Company in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the FRC's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Conclusions relating to going concern

In auditing the financial statements, we have concluded that the Authorised Corporate Director's use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

Based on the work we have performed, and other than the matter covered in the "Emphasis of matter" paragraph below which applies to the WAY Absolute Return Portfolio Fund, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the Company's ability to continue as a going concern for a period of at least twelve months from when the financial statements are authorised for issue.

Our responsibilities and the responsibilities of the Authorised Corporate Director with respect to going concern are described in the relevant sections of this report.

Emphasis of matter – Sub-fund financial statements prepared on a basis other than going concern

We draw attention to note 1(a) of the financial statements which explains that the Authorised Corporate Director has commenced process of termination WAY Absolute Return Portfolio Fund. Accordingly, the financial statements have been prepared on a basis other than that of going concern as described in note 1(a).

Our opinion is not modified in respect of this matter.

Independent Auditor's Report to the Shareholders of WAY MA Portfolio (continued) **For the year ended 31 March 2024**

Other information

The other information comprises the information included in the annual report, other than the financial statements and our auditor's report thereon. The Authorised Corporate Director is responsible for the other information contained within the annual report. Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon. Our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the course of the audit, or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether this gives rise to a material misstatement in the financial statements themselves. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

Opinion on other matters prescribed by the Collective Investment Schemes Sourcebook

In our opinion, based on the work undertaken in the course of the audit:

- proper accounting records for the Company and its sub-funds have been kept and the Financial Statements are in agreement with those records;
- we have received all the information and explanations which, to the best of our knowledge and belief, were necessary for the purposes of our audit; and
- the information disclosed in the report of the Authorised Corporate Director for the year end for the purpose of complying with Paragraph 4.5.9R of the Collective Investment Schemes Sourcebook is consistent with the Financial Statements.

Responsibilities of Authorised Corporate Director and Depositary

As explained more fully in the statement of Depositary's responsibilities and the statement of Authorised Corporate Director's responsibilities, the Depositary is responsible for safeguarding the property of the Company and the Authorised Corporate Director is responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as the Authorised Corporate Director determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Authorised Corporate Director are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Authorised Corporate Director either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Irregularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our responsibilities, outlined above, to detect material misstatements in respect of irregularities, including fraud. The extent to which our procedures are capable of detecting irregularities, including fraud is detailed below:

Independent Auditor's Report to the Shareholders of WAY MA Portfolio (continued) For the year ended 31 March 2025

Auditor's responsibilities for the audit of the financial statements (continued)

- We obtained an understanding of the legal and regulatory framework applicable through discussions with management and from industry knowledge. The laws and regulations that we considered significant in this context included FRS102, the Statement of Recommended Practice ("SORP") for Financial Statements of UK Authorised Funds issued by the Investment Association in May 2014 and amended in June 2017, the Financial Services and Markets Act 2000, the Open-Ended Investment Companies Regulations 2001 ("the OEIC Regulations"), the FCA's Collective Investment Schemes Sourcebook ("COLL"), the FCA's Investment Funds Sourcebook ("FUND") and the Company's Instrument of Incorporation and relevant tax legislation.
- We designed our audit procedures to ensure the audit team considered whether there were any indications of non-compliance by the Company with those laws and regulations. These procedures included, but were not limited to:
 - o agreement of the financial statement disclosures to underlying supporting documentation and agreeing that all relevant disclosures under the SORP and COLL were included;
 - o enquires of management and those charged with governance;
 - o reviewing correspondence with regulators.
- We assessed the susceptibility of the financial statements to material misstatement, including how fraud might occur, from discussions with senior management and obtaining an understanding of the controls and processes in place to prevent, deter and detect fraud. The key areas identified were revenue recognition and management override of the controls in place and our tests to address these included but were not limited to:
 - o agreement of a sample of dividend receipts to third party evidence to check accuracy and occurrence.
 - o agreement of a sample of realised gains and losses to third party evidence and bank statements to check accuracy and occurrence.
 - o agreement of the calculation of unrealised gains and losses and agreement of the valuation of year end investments to third party sources.
 - o Identifying and testing journal entries made throughout the year which were considered to be large or unusual as well as a sample of others.

Because of the inherent limitations of an audit, there is a risk that we will not detect all irregularities, including those leading to a material misstatement in the financial statements or non-compliance with regulation. This risk increases the more that compliance with a law or regulation is removed from the events and transactions reflected in the financial statements, as we will be less likely to become aware of instances of non-compliance. The risk is also greater regarding irregularities occurring due to fraud rather than error, as fraud involves intentional concealment, forgery, collusion, omission or misrepresentation.

A further description of our responsibilities for the audit of the financial statements is located on the Financial Reporting Council's website at: www.frc.org.uk/auditorsresponsibilities. This description forms part of our auditor's report.

Use of our report

This report is made solely to the Company's Shareholders, as a body, in accordance with Paragraph 4.5.12R of the Collective Investment Schemes Source book issued by the Financial Conduct Authority. Our audit work has been undertaken so that we might state to Company's Shareholders those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone, other than the Company and the Company's Shareholders as a body, for our audit work, for this report, or for the opinions we have formed.

Accounting Policies and Financial Instruments For the year ended 31 March 2025

1 Accounting Basis And Policies

(a) Basis of accounting

The Financial Statements have been prepared under the historical cost basis, as modified by the revaluation of investments and in accordance with FRS 102 "The Financial Reporting Standards Applicable in the UK and Republic of Ireland" and the Statement of Recommended Practice ("SORP") for Financial Statements of UK Authorised Funds issued by the Investment Association in May 2014, Open-Ended Investment Companies Regulations 2001 ("the OEIC Regulations"), the FCA's Collective Investment Schemes Sourcebook ("COLL"), the FCA's Investment Funds Sourcebook ("FUND") and the Fund's Instrument of Incorporation.

As described in the Certification of Financial Statements by Directors of the ACD on page 5, the ACD continues to adopt the going concern basis in the preparation of the Financial Statements of the Funds, with the exception of WAY Absolute Return Portfolio which is in the process of termination. WAY Absolute Return Portfolio Fund has been prepared on a basis other than that of a going concern.

(b) Realised and unrealised gains and losses

Realised gains or losses have been calculated as the proceeds from disposal less book cost.

Unrealised gain/losses are calculated with reference to the original recorded value of the asset or liability, and only the element of gain/loss within the accounting period is recorded in the Financial Statements. All unrealised and realised gains are capital in nature and do not form part of the Fund's distributable income.

Central Securities Depositories Regulation (CSDR) entered into force in 2014 with an objective of improving securities settlements in the European Union. One of the cornerstones of the CSDR is the introduction of an obligation on Central Securities Depositories (CSDs) to impose cash penalties on participants to their securities systems that cause settlement failures. The cash penalties may be accounted for as a capital expense or gain (if the 3rd party was responsible for the failure of trade settlement). The CSDR penalties will be reimbursed by the Investment Manager as necessary to ensure that the Funds will not suffer undue costs.

(c) Recognition of revenue

Dividends on quoted equities and preference Shares are recognised when the securities are quoted ex-dividend and are recognised net of attributable tax credits.

Rebates of annual management charges on underlying investments are accounted for on an accruals basis and recognised as revenue or capital in line with the treatment of the charge on the underlying Fund.

Revenue from debt securities is accounted for on a straight line amortization basis. Accrued interest on purchase and sale contracts is recognised as revenue and transferred to revenue or capital as appropriate.

Distributions from Collective Investment Schemes are recognised when the schemes are quoted ex-distribution. Equalisation returned with the distribution is deducted from the cost of the investment and does not form part of the distributable revenue.

Interest on bank and other cash deposits is recognised on an accruals basis.

All revenue includes withholding taxes but excludes irrecoverable tax credits.

Any reported revenue from an offshore fund, in excess of any distribution received in the reporting year, is recognised as revenue no later than the date on which the reporting fund makes this information available.

Accounting Policies and Financial Instruments (continued) For the year ended 31 March 2025

1 Accounting Basis And Policies (continued)

(d) Treatment of stock and special dividends

The ordinary element of stock dividends received in lieu of cash dividends is credited to capital in the first instance followed by a transfer to revenue of the cash equivalent being offered and this forms part of the distributable revenue.

Special dividends are reviewed on a case by case basis in determining whether the dividend is to be treated as revenue or capital. Amounts recognised as revenue will form part of the distributable revenue. The tax treatment follows the treatment of the principal amount.

(e) Treatment of expenses

Expenses of the Funds are charged against revenue except for costs associated with the purchase and sale of investments which are allocated to the capital of the Funds.

Expenses are recorded on an accrual basis but the Fund may incur additional allowable expenses which are charged as and when they are incurred.

Rebates on the fees payable to the ACD are accounted for on an accruals basis and recognised as revenue or capital based on the expense policy of the underlying fund. Rebates on the fees payable to the ACD are netted off against the expense to which they relate.

(f) Allocation of revenue and expenses to multiple Share Classes and Funds

Any revenue or expenses not directly attributable to a particular Share Class or Fund will normally be allocated pro-rata to the net assets of the relevant Share Classes and Funds.

(g) Taxation

Tax is provided for using tax rates and laws which have been enacted or substantively enacted at the balance sheet date.

Corporation tax is provided for on the income liable to corporation tax less deductible expenses.

Corporation tax is provided for on realised gains on non-reporting offshore funds less deductible expenses. Deferred tax is provided for on unrealised gains on non-reporting offshore funds less deductible expenses.

Where tax has been deducted from revenue that tax can, in some instances, be set off against the corporation tax payable, by way of double tax relief.

Deferred tax is provided using the liability method on all timing differences arising on the treatment of certain items for taxation and accounting purposes, calculated at the rate at which it is anticipated the timing differences will reverse. Deferred tax assets are recognised only when, on the basis of available evidence, it is probable that there will be taxable profits in the future against which the deferred tax asset can be offset.

(h) Distribution policy

The net revenue after taxation, as disclosed in the Financial Statements, after adjustment for items of a capital nature, is distributable to Shareholders as dividend distributions. Any revenue deficit is deducted from capital.

In addition, the portfolio transaction charges will be charged wholly to the capital of the Fund. Accordingly, the imposition of such charges may constrain the capital growth of the Fund.

The ACD has elected to pay all revenue less expenses charged to revenue and taxation as a final distribution at the end of the annual accounting year.

Accounting Policies and Financial Instruments (continued)
For the year ended 31 March 2025**1 Accounting Basis And Policies (continued)*****(i) Basis of valuation of investments***

Listed investments are valued at close of business bid prices excluding any accrued interest in the case of fixed interest securities, on the last business day of the accounting year.

Market value is defined by the SORP as fair value which is the bid value of each security.

Collective Investment Schemes are valued at quoted bid prices for dual priced funds and at quoted prices for single priced funds, on the last business day of the accounting year.

All securities with quoted prices in active markets, including open ended funds and all investment trusts are classified as Level 1 in the Fair Value Disclosure described in the Notes to the Financial Statements.

All investments are recognised and derecognised on trade date, and any trades that occur between valuation point and close of business are included in the Financial Statements.

Non-observable entity specific data is only used where relevant observable market data is not available. Typically this category will include single broker-priced instruments, suspended/unquoted securities, private equity, unlisted close-ended funds and open-ended funds with restrictions on redemption rights.

A fair value has been applied to the remaining assets for the WAY Absolute Return Portfolio Fund. However, there can be no guarantee that the fair price will be the price at which these assets will ultimately be realised.

We, as ACD, are of the opinion that the following valuations are appropriate. Each is based on a fair value pricing assessment (by WFM's Fair Value pricing Committee).

WAY Absolute Return Portfolio Fund:

Security	Fair ValuePrice
£1,900,000 European Investment Grade Properties 6.5% 31/03/2023 debt instrument	0.00p
4 All Saints Asset Management 6.50% 30/09/2023 debt instrument	0.00p

Throughout the reporting period and beyond, the ACD has been assessing the values of the underlying assets, primarily by reference to information that comes into the public domain. The All Saints Asset Management bond was fair value priced at zero, as its parent was placed into administration and its audited accounts have been overdue for a considerable length of time; and the European Investment Grade Properties bond's audited accounts for February 2024 suggest that, unless there is a significant turnaround in the Company's fortunes, the bond is likely to be without value.

Post balance sheet, All Saints Asset Management has been liquidated and will be removed from the Fund. The ACD are also in conversation with the Depositary regarding the removal of the European Investment Grade Properties holding from the Fund.

Post balance sheet events which could affect the values carried by the above assets could include, but would not be limited to:

- Any publicly available information regarding the entities;
- Publication of financial statements, audited or unaudited;
- Non-receipt of a scheduled coupon (i.e. payment of interest).

WAY MA Cautious Portfolio Fund

As at the balance sheet date the WAY MA Cautious Portfolio Fund holds 12,790 shares in Better Capital. Our approach to the fair valuation of this asset is included below.

Better Capital PCC Ltd delisted in June 2020 and will be wound up. The asset is currently priced at zero under the instruction of the Fair Value Pricing Committee of the ACD.

Accounting Policies and Financial Instruments (continued) For the year ended 31 March 2025

1 Accounting Basis And Policies (continued)

(j) Exchange rates

Transactions in foreign currencies are recorded in Pound Sterling at the rate ruling at the date of the transactions. Assets and liabilities expressed in foreign currencies at the end of the accounting year are translated into Pound Sterling at the closing mid market exchange rates ruling on that date.

(k) Dilution levy

The ACD may require a dilution levy on the sale and redemption of Shares if, in its opinion, the existing Shareholders (for sales) or remaining Shareholders (for redemptions) might otherwise be adversely affected. In particular, the dilution levy may be charged in the following circumstances: where the scheme property is in continual decline; on a Fund experiencing large levels of net sales relative to its size; on 'large deals'; in any case where the ACD is of the opinion that the interests of remaining Shareholders require the imposition of a dilution levy.

(l) Equalisation

Equalisation applies only to Shares purchased during the distribution period (Group 2 Shares). It represents the accrued revenue included in the purchase price of the Shares.

After averaging it is returned with the distribution as a capital repayment. It is not liable to income tax but must be deducted from the cost of the Shares for Capital Gains Tax purposes.

(m) Derivatives

The Funds may enter into permitted transactions such as derivative contracts or forward foreign currency transactions. Where these transactions are used to protect or enhance revenue, the revenue and expenses are included within net revenue in the Statement of Total Return.

Where the transactions are used to protect or enhance capital, the gains/losses are treated as capital and included within gains/losses on investments in the Statement of Total Return. Any open positions in these types of transactions at the year end are included in the Balance Sheet at their mark to market value. There were no derivative transactions during the year.

2 Derivatives and other financial instruments

Management of risk is a critical responsibility of the ACD in managing the Company.

The Funds for which WAY Fund Managers Limited acts as ACD are exposed to a wide range of risks. The purpose of the ACD's Risk Management Policy ("RMP") is to identify these risks and document the controls and processes in place to manage and mitigate these risks. The specific risks to the Funds are documented in sections (a) to (i) below and are reviewed on a regular basis.

The control environment on which the ACD's RMP has been developed is based on six key characteristics:

- (i) Commitment, from senior management and all employees, to a control ethic based on competence and integrity.
- (ii) Identification and evaluation of risks and control objectives.
- (iii) Control and information procedures that identify and capture relevant and reliable data to monitor risks within pre-determined limits.
- (iv) Formal procedures for monitoring, reporting, escalation and remedial follow-up action.
- (v) An independent and permanent risk management function in regards to portfolio management.
- (vi) An independent and permanent risk management function in regards to the firm.

Accounting Policies and Financial Instruments (continued) For the year ended 31 March 2025

2 Derivatives and other financial instruments (continued)

In pursuing the investment objectives a number of financial instruments are held which may comprise securities and other investments, cash balances and debtors and creditors that arise directly from operations. Derivatives, such as futures or forward currency contracts, may be utilised for hedging

The main risks from the Company's holding of financial instruments, together with the ACD's policy for managing these risks, are disclosed below:

(a) Foreign currency risk

A significant portion of the Company's assets or the underlying assets of the collective investment schemes and equities in which the Company invests may be denominated in a currency other than the base currency of the Company or Class. There is the risk that the value of such assets and/or the value of any distributions from such assets may decrease if the underlying currency in which assets are traded falls relative to the base currency in which Shares of the relevant Fund are valued and priced.

The Company is not required to hedge its foreign currency risk, although it may do so through foreign currency exchange contracts, forward contracts, currency options and other methods. To the extent that the Company does not hedge its foreign currency risk or such hedging is incomplete or unsuccessful, the value of the Company's assets and revenue could be adversely affected by currency exchange rate movements. There may also be circumstances in which a hedging transaction may reduce currency gains that would otherwise arise in the valuation of the Company in circumstances where no such hedging transactions are undertaken.

(b) Interest rate risk profile of financial assets and liabilities

The interest rate risk is the risk that the value of the Company's investments will fluctuate due to changes in the interest rate. Cashflows from floating rate securities, bank balances, or bank overdrafts will be affected by the changes in interest rates. As the Company's objective is to seek capital growth, these cashflows are considered to be of secondary importance and are not actively managed.

The Company did not have any long term financial liabilities at the balance sheet date.

(c) Credit risk

The Company may find that companies in which it invests fail to settle their debts on a timely basis. The value of securities issued by such companies may fall as a result of the perceived increase in credit risk. Adhering to investment guidelines and avoiding excessive exposure to one particular issuer can limit credit risk.

(d) Liquidity risk

Subject to the Regulations, the Company may invest up to and including 20% of the Scheme Property of the Company in transferable securities which are not approved securities (essentially transferable securities which are admitted to official listing in an EEA state or traded on or under the rules of an eligible securities market). Such securities and instruments are generally not publicly traded, may be unregistered for securities law purposes and may only be able to be resold in privately negotiated transactions with a limited number of purchasers. The difficulties and delays associated with such transactions could result in the Company's inability to realise a favourable price upon disposal of such securities, and at times might make disposition of such securities and instruments impossible. To the extent the Company invests in securities and instruments the terms of which are privately negotiated, the terms of such securities and instruments may contain restrictions regarding resale and transfer.

Accounting Policies and Financial Instruments (continued) For the year ended 31 March 2025

2 Derivatives and other financial instruments (continued)

(d) Liquidity risk (continued)

In addition, certain listed securities and instruments, particularly securities and instruments of smaller capitalised or less seasoned issuers, may from time to time lack an active secondary market and may be subject to more abrupt or erratic price movements than securities of larger, more established companies or stock market averages in general. In the absence of an active secondary market the Company's ability to purchase or sell such securities at a fair price may be impaired or delayed.

(e) Market price risk

The Company invests principally in collective investment schemes and equities. The value of these investments are not fixed and may go down as well as up. This may be the result of a specific factor affecting the value of an individual equity or be caused by general market factors (such as government policy or the health of the underlying economy) which can affect the entire portfolio. The Investment Manager seeks to minimise these risks by holding a diversified portfolio in line with the Company's objectives. In addition, the management of the Company complies with the FCA's COLL sourcebook, which includes rules prohibiting a holding greater than 35% of assets in any one Fund.

(f) Counterparty risk

Transactions in securities entered into by the Company give rise to exposure to the risk that the counterparties may not be able to fulfil their responsibility by completing their side of the transaction. The Investment Manager minimises this risk by conducting trades through only the most reputable counterparties.

Counterparty risk is also managed by limiting the exposure to individual counterparties through adherence to the investment spread restrictions included within the Company's prospectus and COLL.

(g) Operational risk

Operational risk is the risk of loss arising from systems failure, human error, fraud or external events. When controls fail to perform, operational risks can cause damage to reputation, have legal or regulatory implications, or lead to financial loss. The Company cannot eliminate operational risks but, through the continual review and assessment of its control environment, by monitoring and responding to potential risks, they can be managed.

High level controls include effective segregation of duties, trade confirmation checking and reconciliation procedures, incident reporting and oversight of delegated functions.

(h) Leverage

In accordance with the Alternative Investment Managers Directive ("AIFMD") and the SORP issued in May 2014, as ACD we are required to disclose any leverage of the Fund. Leverage is defined as any method by which the Fund increases its exposure through borrowing or the use of derivatives (calculated in accordance with the commitment method approach (AIFMR article 8)) divided by the net asset value.

The Fund's exposure is defined with reference to the 'Commitment' method. Commitment method exposure is calculated as the sum of all positions of the Fund, after netting off derivative and security positions and is disclosed within the individual Funds' Financial Statements.

(i) Fair value of financial assets and financial liabilities

There is no material difference between the value of the financial assets and liabilities, as shown in the balance sheet, and their fair value.

LEI licence fee	68	69
	5,018	4,826
Total expenses	5,018	4,826

* Audit fees of £3,850 + VAT have been charged in the current year (2024: £3,675 + VAT).

WAY Absolute Return Portfolio Fund

Notes to the Financial Statements (continued) For the year ended 31 March 2025

5 Taxation

(a) Analysis of the tax charge in the year

	01/04/24 to 31/03/25 £	01/04/23 to 31/03/24 £
Corporation tax	-	-
Total current tax charge (Note 5 (b))	-	-
Deferred tax (Note 5 (c))	-	-
Total taxation for the year	-	-

(b) Factors affecting current tax charge for the year

The tax assessed for the year is different from that calculated when the standard rate of corporation tax for an open ended investment company of 20% (2024: 20%) is applied to the net expense before taxation.

The differences are explained below:

	01/04/24 to 31/03/25 £	01/04/23 to 31/03/24 £
Net expense before taxation	(3,335)	(2,710)
Net expense for the year multiplied by the standard rate of corporation tax	(667)	(542)
Effects of:		
Movement in excess management expenses	667	542
Total tax charge for the year	-	-

OEICs are exempt from tax on capital gains in the UK. Therefore, any capital return is not included within the reconciliation above.

(c) Provision for deferred tax

There is no provision required for deferred taxation at the Balance Sheet date in the current or prior year.

(d) Factors that may affect future tax charges

At the year end, after offset against revenue taxable on receipt, there is a potential deferred tax asset of £46,464 (2024: £45,797) in relation to surplus management expenses. It is unlikely that the Fund will generate sufficient taxable profits in the future to utilise this amount and therefore no deferred tax asset has been recognised in the year.

WAY Absolute Return Portfolio Fund

Notes to the Financial Statements (continued) For the year ended 31 March 2025

6 Finance costs

Distributions

The distributions take account of revenue received on the issue of Shares and revenue deducted on the cancellation of Shares and comprise:

	01/04/24 to 31/03/25 £	01/04/23 to 31/03/24 £
Final	-	-
Add: Revenue paid on cancellation of Shares	-	-
Deduct: Revenue received on issue of Shares	-	-
Net distribution for the year	-	-
Reconciliation of net expense after taxation to distributions		
Net expense after taxation	(3,335)	(2,710)
Revenue deficit	3,335	2,710
Net distribution for the year	-	-

Details of the distributions per Share are set out in the distribution table on page 32.

10 Related party transactions

The monies received and paid by the ACD through the issue and cancellation of Shares are disclosed in the Statement of Change in Shareholders' Net Assets and amounts due at the year end are disclosed in notes 7 and 9.

The ACD and its associates (including other authorised investment funds managed by the ACD) have no Shareholdings in the Company at the year end.

All other amounts received or paid by the related parties together with the outstanding balances are disclosed within the individual Funds' Financial Statements.

Significant Shareholdings

WAY Fund Managers Limited, as the Fund's Authorised Corporate Director, wishes to disclose to the Fund's Shareholders that 46.68% (2024: 46.68%) of the Fund's shares in issue are under the control of a single nominee and its related parties.

11 Share Classes

The Share Class and ACD's Annual Management Charges applicable to the Fund are as follows:

Share Class

A Income
E Accumulation
E Income
Retail Accumulation
S Income
T Income
Z Accumulation
Z Income

Each Share Class has equal rights in the event of the wind up of any fund.

WAY Absolute Return Portfolio Fund

Notes to the Financial Statements (continued) For the year ended 31 March 2025

11 Share Classes (continued)

The reconciliation of the opening and closing numbers of Shares of each class is shown below:

	31/03/24	Issued	Cancelled	Converted	31/03/25
A Income	74,666	-	-	-	74,666
E Accumulation	5,976,072	-	-	-	5,976,072
E Income	524,488	-	-	-	524,488
Retail Accumulation	137,854	-	-	-	137,854
S Income	174,820	-	-	-	174,820
T Income	256,237	-	-	-	256,237
Z Accumulation	538,401	-	-	-	538,401
Z Income	794,201	-	-	-	794,201

12 Capital commitments and contingent liabilities

There were no contingent liabilities or outstanding commitments at the balance sheet date (2024: nil).

13 Derivatives and other financial instruments

The main risks from the Fund's holding of financial instruments, together with the ACD's policy for managing these risks, are disclosed in note 2 on pages 14, 15 and 16.

(a) Foreign currency risk

The table below shows the foreign currency risk profile at the balance sheet date:

Currency	Net foreign currency assets		
	Monetary exposures	Non-monetary exposures	Total
	£	£	£
31/03/25			
Pound Sterling	25,298	11	25,309
Total net assets	25,298	11	25,309
31/03/24			
Pound Sterling	95,625	-	95,625
Total net assets	95,625	-	95,625

If GBP to foreign currency exchange rates had strengthened/increased by 10% as at the balance sheet date, the net asset value of the Fund would have decreased by £Nil (2024: £Nil). If GBP to foreign currency exchange rates had weakened/decreased by 10% as at the balance sheet date, the net asset value of the Fund would have increased by £Nil (2024: £Nil). These calculations assume all other variables remain constant.

WAY Absolute Return Portfolio Fund

Notes to the Financial Statements (continued) For the year ended 31 March 2025

13 Derivatives and other financial instruments (continued)

(b) Interest rate risk profile of financial assets and liabilities

The table below shows the interest rate risk profile at the balance sheet date:

Currency Assets 31/03/25	Floating rate financial assets £	Financial assets not carrying interest £	Total £
Pound Sterling	29,839	50	29,889
Total	29,839	50	29,889
31/03/24			
Pound Sterling	99,807	183	99,990
Total	99,807	183	99,990

Currency Liabilities 31/03/25	Floating rate financial liabilities £	Financial liabilities not carrying interest £	Total £
Pound Sterling	-	4,580	4,580
Total	-	4,580	4,580
31/03/24			
Pound Sterling	-	4,365	4,365
Total	-	4,365	4,365

Changes in interest rates would have no material impact to the valuation of floating rate financial assets or liabilities as at the balance sheet date. Consequently, no sensitivity analysis has been presented.

(c) Market Risk

If market prices had increased by 10% as at the balance sheet date, the net asset value of the Fund would have increased by the amounts set out in the table below.

If market prices had decreased by 10% as at the balance sheet date, the net asset value of the Fund would have decreased by the amounts set out in the table below.

These calculations have been applied to non-derivative securities only (see note 2 (h) for an explanation of the Fund's leverage during the period). These calculations assume all other variables remain constant.

	Increase £	Decrease £
2025	1	1
2024	-	-

(d) Leverage

The Fund has not employed any significant leverage during the period covered by this report.

WAY MA Cautious Portfolio Fund

Investment Manager's Report For the year ended 31 March 2025

Investment Objective

The objective of the Fund is to seek capital growth.

Investment Policy

The Fund will seek to achieve its objective from an actively managed portfolio of collective investment schemes, investment trusts, other transferable securities including listed securities, cash or near cash, deposits and money market instruments. The Fund will typically invest between 20% and 60% of its portfolio in equity securities.

There will be no restrictions on the underlying content of the investments held, in terms of investment type, geographical or economic sector.

The use of derivatives and/or hedging transactions will be permitted in connection with the efficient portfolio management of the Fund (typically hedging, including investing in hedged share classes, which attempts to mitigate against falls in the value of the Fund's assets and the effects of changes in currency exchange rates against the Fund's base currency, which is pounds sterling). Borrowing of up to 10% of the Fund's net asset value will be permitted.

On giving 60 days notice to Shareholders, the Fund may, in addition to its other investment powers, use derivatives and forward transactions for investment purposes. It is not intended that the use of derivatives in this way will change the risk profile of the Fund.

Subject to the above, the Fund may invest in any asset class and adopt any investment technique or strategy permitted under the rules in COLL as such rules are applied to Non-UCITS retail schemes.

Investment Review

The WAY MA Cautious Portfolio Fund (E Accumulation share class) rose 2.87% over the year to 31 March 2025 while the comparator benchmark, the Investment Association (IA) Mixed Investment 20-60% Shares sector average rose 3.76%. Over the five-year period under review, the WAY MA Cautious Portfolio Fund rose 37.91% while the comparator benchmark rose 30.91%.

Global equities and bonds rose 5.33% and 0.85% respectively in sterling terms over the year under review. The Bank of England, Federal Reserve (the 'Fed') and European Central Bank began to ease monetary policy, with policy interest rates in total cut by three quarters of a percentage point, one point and 1.5 points respectively over the year. Investors expected fewer rate cuts in the second half of the year because price pressures persisted. The global composite Purchasing Managers' Index remained above 50, signalling expansion, but the future output index dropped close to its 2020 low point, implying growth might be short-lived.

The Organisation for Economic Cooperation and Development grew more pessimistic about growth and inflation. Gold gained 36.45% as geopolitical risks increased and central banks increased gold reserves. Shortly after the year end, America imposed a 10% baseline tariff on all imports and higher 'reciprocal' tariffs on individual countries.

In the US elections, Republicans won full control of Congress. President Donald Trump's trade protectionism and anti-immigration measures may add to inflationary pressures. The Fed may, therefore, keep interest rates higher for longer, which may lead to falls for longer-dated bonds. In response, the duration of the portfolio's bond investments was reduced and exposure to inflation-linked bonds was increased through the partial sale of Jupiter Dynamic Bond and an addition to the sterling-hedged Fidelity Global Inflation-Linked Bond holding.

Fuelled by economic growth and post-election hopes for deregulation and tax cuts, US equities rose 5.95% in sterling terms. Investors' enthusiasm about the commercial prospects for Artificial Intelligence (AI) left the US market highly concentrated, dominated by large technology companies on stretched valuations. Following strong performance, the allocation to large technology stocks was trimmed, with profits taken through the partial sales of Polar Capital Global Technology and Fidelity Index US.

WAY MA Cautious Portfolio Fund

Investment Manager's Report (continued) For the year ended 31 March 2025

Investment Review (continued)

US technology stocks ended the year up only 4.12% in sterling terms following the emergence of DeepSeek, a Chinese company that had developed a cheaper AI model, causing a technology sector sell-off in the last few months of the year. The iShares S&P 500 Equal Weight exchange-traded fund (ETF) was added. This holds the same amount in each S&P 500 stock, ensuring broader diversification than conventional passive investments weighted by market capitalisation. Within global equities, Polar Capital Global Insurance, which is generally less sensitive to changes in the macro-economic environment, proved defensive.

The portfolio's allocation to equities in Europe excluding the UK, which gained 3.33% in sterling terms over the year, was low in 2024 due to weak growth and fractured politics but Europe ex-UK equities presented an attractive valuation opportunity, and the allocation was increased in the final quarter of the year under review. Falling eurozone interest rates and German fiscal reforms, including increased defence spending and a proposed €500 billion infrastructure package, may prove tailwinds.

In the UK, where Labour won a landslide victory, equities rose 10.32%. The portfolio's exposure to large companies were increased through the purchase of the iShares FTSE 100. Large companies appeared attractively valued and tend to be less sensitive to domestic trends than smaller companies, with about three-quarters of FTSE 100 company earnings derived from overseas. UK smaller companies returned only 2.31%, with growth subdued and costs high.

Chinese equities rose 37.79% in sterling terms thanks to measures aimed at propping up its troubled property sector and monetary and fiscal stimulus in September, but economic challenges remained, exacerbated by trade tensions. The portfolio remained overweight in emerging market equities, which rose 6.33% in sterling terms. Emerging markets overall are growing faster than developed markets ended the year trading on lower valuations. A position in Redwheel Next Generation Emerging Markets Equity, which invests in emerging and frontier markets, was initiated.

In Japan, where the Bank of Japan increased its policy interest rate to its highest level in 17 years, equities fell 2.48% in sterling terms. The portfolio's allocation was modestly reduced through the partial sale of Man Japan CoreAlpha. Japanese stocks may continue to benefit from corporate reforms but President Trump's 25% tariff on imported cars may be a headwind because a third of Japanese-made vehicles are exported to the US.

Outlook

Amid political uncertainty, asset class and geographic diversification may provide protection. Short-dated inflation-linked bonds are preferred in the bond markets as inflation pressure persists. High valuations and earnings expectations warrant a cautious approach to large US technology companies but lowly-valued equities in the UK, Continental Europe and emerging markets may provide a buffer amid challenging markets.

Risk Warning

An investment in an Open-Ended Investment Company should be regarded as a long term investment. Investors should be aware that the price of Shares and the income from them may fall as well as rise and investors may not receive back the full amount invested. Past performance is not a guide to future performance. Investments denominated in currencies other than the base currency of a fund are subject to fluctuation in exchange rates, which may be favourable or unfavourable.

Transfer agency fees	6,863	6,773
	220,488	231,663
Payable to the Depositary, associates of the Depositary, and agents of either of them		
Depositary's fees	18,037	18,000
Safe custody fees	3,735	4,519
	21,772	22,519
Other expenses		
Audit fees*	7,416	7,410
EPT (European PRIIPs Template) reporting fee	2,509	1,033
FCA fees	28	52
LEI licence fee	68	101
MiFID II reporting fee	474	459
Price publication fee	(1,034)	1,378
Printing, postage, stationery and typesetting costs	900	1,223
	10,361	11,656
Total expenses	252,621	265,838

* Audit fees of £5,920 + VAT have been charged in the current year (2024: £5,660 + VAT).

WAY MA Cautious Portfolio Fund

Notes to the Financial Statements (continued) For the year ended 31 March 2025

5 Interest paid and similar charges	01/04/24 to 31/03/25	01/04/23 to 31/03/24
	£	£
Bank Interest	2,282	-
Total Interest paid and similar charges	2,282	-

6 Taxation	01/04/24 to 31/03/25	01/04/23 to 31/03/24
	£	£
<i>(a) Analysis of the tax charge in the year</i>		
Corporation tax	-	-
Total current tax charge (Note 6 (b))	-	-
Deferred tax (Note 6 (c))	-	-
Total taxation for the year	-	-

(b) Factors affecting current tax charge for the year

The tax assessed for the year is different from that calculated when the standard rate of corporation tax for an open ended investment company of 20% (2024: 20%) is applied to the net expense before taxation.

The differences are explained below:

	01/04/24 to 31/03/25	01/04/23 to 31/03/24
	£	£
Net expense before taxation	(196,261)	(211,013)
Net expense for the year multiplied by the standard rate of corporation tax	(39,252)	(42,203)
Effects of:		
Movement in excess management expenses	45,667	48,533
Revenue not subject to corporation tax	(6,415)	(6,330)
Total tax charge for the year	-	-

OEICs are exempt from tax on capital gains in the UK. Therefore, any capital return is not included within the reconciliation above.

(c) Provision for deferred tax

There is no provision required for deferred taxation at the Balance Sheet date in the current or prior year.

(d) Factors that may affect future tax charges

At the year end, after offset against revenue taxable on receipt, there is a potential deferred tax asset of £778,684 (2024: £732,830) in relation to surplus management expenses. It is unlikely that the Fund will generate sufficient taxable profits in the future to utilise this amount and therefore no deferred tax asset has been recognised in the year.

WAY MA Cautious Portfolio Fund

12 Related party transactions

The monies received and paid by the ACD through the issue and cancellation of Shares are disclosed in the Statement of Change in Shareholders' Net Assets and amounts due at the year end are disclosed in notes 8 and 10.

The ACD and its associates (including other authorised investment funds managed by the ACD) have no Shareholdings in the Company at the year end.

Significant Shareholdings

WAY Fund Managers Limited, as the Fund's Authorised Corporate Director, wishes to disclose to the Fund's Shareholders that 51.35% (2024: 49.23%) of the Fund's shares in issue are under the control of a single nominee and its related parties.

WAY MA Cautious Portfolio Fund

Notes to the Financial Statements (continued) For the year ended 31 March 2025

13 Share Classes

The Share Class and ACD's Annual Management Charges applicable to the Fund are as follows:

Share Class	%
B Retail Accumulation	1.45
B Retail Income	1.45
C Income	0.65
E Accumulation	0.95
E Income	0.95
S Income	0.95
T Income	1.25

Each Share Class has equal rights in the event of the wind up of any fund.

The reconciliation of the opening and closing numbers of Shares of each class is shown below:

	31/03/24	Issued	Cancelled	Converted	31/03/25
B Retail Accumulation	152,248	-	-	(28,922)	123,326
B Retail Income	3,293,478	-	(318,674)	-	2,974,804
C Income	1,124,216	30,264	(78,793)	-	1,075,687
E Accumulation	10,238	13	(12)	60,615	70,854
E Income	232,098	31,034	(5,124)	(28,652)	229,356
S Income	3,403,034	112,813	(601,689)	-	2,914,158
T Income	3,410,691	15,226	(376,205)	-	3,049,712

14 Capital commitments and contingent liabilities

There were no contingent liabilities or outstanding commitments at the balance sheet date (2024: nil).

15 Derivatives and other financial instruments

The main risks from the Fund's holding of financial instruments, together with the ACD's policy for managing these risks, are disclosed in note 2 on pages 14, 15 and 16.

(a) Foreign currency risk

The table below shows the foreign currency risk profile at the balance sheet date:

Currency	Net foreign currency assets/(liabilities)		
	Monetary exposures	Non-monetary exposures	Total
	£	£	£
31/03/25			
Euro	-	11,116	11,116
US Dollar	(24)	276,657	276,633
Total foreign currency exposure	(24)	287,773	287,749
Pound Sterling	285,854	16,467,439	16,753,293
Total net assets	285,830	16,755,212	17,041,042

WAY MA Cautious Portfolio Fund

Notes to the Financial Statements (continued) For the year ended 31 March 2025

15 Derivatives and other financial instruments (continued)

(a) Foreign currency risk (continued)

31/03/24			
Euro	-	9,614	9,614
US Dollar	(24)	32,765	32,741
Total foreign currency exposure	(24)	42,379	42,355
Pound Sterling	237,718	18,302,390	18,540,108
Total net assets	237,694	18,344,769	18,582,463

If GBP to foreign currency exchange rates had strengthened/increased by 10% as at the balance sheet date, the net asset value of the Fund would have decreased by £26,159 (2024: £3,850). If GBP to foreign currency exchange rates had weakened/decreased by 10% as at the balance sheet date, the net asset value of the Fund would have increased by £31,972 (2024: £4,706). These calculations assume all other variables remain constant.

(b) Interest rate risk profile of financial assets and liabilities

The table below shows the interest rate risk profile at the balance sheet date:

Currency Assets	Floating rate financial assets £	Financial assets not carrying interest £	Total £
31/03/25			
Euro	-	11,116	11,116
Pound Sterling	314,590	16,473,921	16,788,511
US Dollar	-	276,657	276,657
Total	314,590	16,761,694	17,076,284
31/03/24			
Euro	-	9,614	9,614
Pound Sterling	260,064	18,334,186	18,594,250
US Dollar	-	32,765	32,765
Total	260,064	18,376,565	18,636,629

Currency Liabilities	Floating rate financial liabilities £	Financial liabilities not carrying interest £	Total £
31/03/25			
Pound Sterling	-	35,219	35,219
US Dollar	23	-	23
Total	23	35,219	35,242
31/03/24			
Pound Sterling	-	54,142	54,142
US Dollar	24	-	24
Total	24	54,142	54,166

Changes in interest rates would have no material impact to the valuation of floating rate financial assets or liabilities as at the balance sheet date. Consequently, no sensitivity analysis has been presented.

WAY MA Cautious Portfolio Fund

Notes to the Financial Statements (continued) For the year ended 31 March 2025

15 Derivatives and other financial instruments (continued)

(c) Market Risk

If market prices had increased by 10% as at the balance sheet date, the net asset value of the Fund would have increased by the amounts set out in the table below.

If market prices had decreased by 10% as at the balance sheet date, the net asset value of the Fund would have decreased by the amounts set out in the table below.

These calculations have been applied to non-derivative securities only (see note 2 (h) for an explanation of the Fund's leverage during the period). These calculations assume all other variables remain constant.

	Increase £	Decrease £
2025	1,675,521	1,675,521
2024	1,834,477	1,834,477

(d) Leverage

The Fund has not employed any significant leverage during the period covered by this report.

16 Portfolio transaction costs

General Information

Classes of Shares

The Company can issue different classes of Shares in respect of the Fund. Holders of Income Shares are entitled to be paid the revenue attributable to such Shares, in respect of each annual accounting period. Holders of Accumulation Shares are not entitled to be paid the revenue attributable to such Shares, but that revenue is retained and accumulated for the benefit of Shareholders and is reflected in the price of Shares.

Buying and Selling Shares

The Authorised Corporate Director ("ACD") will accept orders to deal in the Shares on normal business days between 9.00 am and 5.00 pm. Instructions to buy or sell Shares should be in writing to: WAY Fund Managers Limited - Cedar House, 3 Cedar Park, Cobham Road, Wimborne, Dorset BH21 7SB. A contract note will be issued by close of business on the next business day after the dealing date to confirm the transaction.

Valuation Point

The valuation point for the Fund is 12 noon on each dealing day (being each day which is a business day in London). Valuations may be made at other times under the terms contained within the Prospectus.

Prices

The prices of Shares for each class in the Fund will be available from WAY Fund Managers on 01202 855856, or by e-mail to customerservice-wayfunds@apexgroup.com.

Report

The annual report of the Company will normally be published within four months of each annual accounting period end.

Interim Financial Statements period ended:	30 September
Annual Financial Statements year ended:	31 March

Distribution Payment Dates

Interim	Not applicable as the Fund distributes annually
Annual	31 May

General Information (continued)**Significant Information**

Under the Alternative Investment Fund Managers Directive ("AIFMD"), acting as the Alternative Investment Fund Manager ("AIFM"), WAY Fund Managers Limited ("WFM") is required to disclose how those whose actions have a material impact on the Funds are remunerated.

The remuneration strategy across WAY Fund Managers Limited is governed by the WAY Fund Managers Limited Board and WAY Fund Managers Limited has chosen not to establish a Remuneration Committee. The WAY Fund Managers Limited Board has established a Remuneration Policy designed to ensure the AIFM Remuneration Code in the UK Financial Conduct Authority's handbook is met proportionately for all AIFM Remuneration Code Staff.

WAY Fund Managers Limited considers its activities as non complex due to the fact that regulation limits the AIF strategies conducted and the scope of investment in such a way that investor risk is mitigated. The discretion of WAY Fund Managers Limited and the portfolio manager is strictly controlled within certain pre-defined parameters as determined in the prospectus of each Alternative Investment Fund.

In its role as an AIFM, WAY Fund Managers Limited deems itself as lower risk due to the nature of the activities it conducts. WAY Fund Managers Limited does not pay any form of variable remuneration currently. Therefore WAY Fund Managers Limited has provided a basic overview of how staff whose actions have a material impact on the Funds are remunerated.

The only material change to the adopted remuneration policy, since the previous year end, is the identification of new risk takers and inclusion of delegates required by the AIFMD.

March 25	Number of Beneficiaries	Total remuneration paid (GBP)	Fixed remuneration (GBP)	Variable remuneration paid (GBP)	Carried interest paid by the AIF (GBP)
Total remuneration paid by WFM during the financial year	17	648,201	648,201	0	0
Remuneration paid to employees of WFM who have a material impact on the risk profile of the AIF	6	278,778	278,778	0	0

Due to the size and structure of WAY Fund Managers Limited, it is determined that employees of the AIFM who have a material impact on the risk profile of the AIF include the Board, Head of Finance and Head of Risk and Compliance.

The delegated investment manager is subject to regulatory requirements on remuneration that WAY Fund Managers Limited deem to be equally as effective as those detailed in the AIFMD, which would include the Capital Requirements Directive or Markets in Financial Instruments Directive.

General Information (continued)

Other Information

Under normal circumstances the Instrument of Incorporation, Prospectus, the NURS Kii and the most recent interim and annual reports may be inspected at the office of the ACD which is also the Head Office of the Company. However, at this time these documents, except for the Instrument of Incorporation, can only be viewed on our website, at www.wayfunds.com, or on request, can be received by email or through the post.

Shareholders who have any complaints about the operation of the Company should contact the ACD or the Depositary in the first instance. In the event that a Shareholder finds the response unsatisfactory they may make their complaint direct to the Financial Ombudsman Service at Exchange Tower, Harbour Exchange Square, London E14 9SR.

Data Protection

By completing and submitting an application to invest in any of the Funds that WAY Fund Managers Limited operates, you will be giving your consent to the processing of your personal data (including any anti-money laundering verification check), by us for the administration of services in connection with your investment on a contractual basis. Additionally we may be requested to share your personal data with our regulator, the Financial Conduct Authority, or for wider compliance with any legal or regulatory obligation to which we might be subject.

If you have used an intermediary to submit the application we may also share information about your investment with them, to help them to continue to provide their services to you, unless you request us not to.

We may share your personal data with contracted third parties for the purposes mentioned above (however this does not entitle such third parties to send you marketing or promotional messages) and we do not envisage that this will involve your personal data being transferred outside of the European Economic Area.

We make every effort to maintain the registration of your holdings accurately. However, if you feel that we have incorrectly recorded any of your personal data, you may request its correction. You have the right to request copies of your personal data stored by us and can do so by using our contact details below.

Your data will be stored and processed securely for the period of your contract with us and for a minimum of seven years after our relationship ceases, for regulatory and legislation purposes only.

We are registered with the Information Commissioner's Office as a Data Controller and Data Processor for this purpose. Further information on how we manage your personal data can be found within our Privacy Notice which can be found on our website www.wayfunds.com.

Should you wish to make a complaint or request further information on how we collect and process your personal data please contact us at: Data Protection Office, WAY Fund Managers Limited, Cedar House, 3 Cedar Park, Cobham Road, Wimborne, Dorset, BH21 7SB. Email: DPO@wayfunds.com Tel: 01202 855856.

Alternatively, if you have any concerns or complaints as to how we have handled your personal data, you may lodge a complaint to the Information Commissioner's Office through their website which can be found at <https://ico.org.uk/for-the-public/how-to-make-a-data-protection-complaint/>.

Effects of Personal Taxation

Investors should be aware that unless their Shares are held within an ISA, selling Shares is treated as a disposal for the purpose of Capital Gains Tax.

Risk Warning

An investment in an Open Ended Investment Company should be regarded as a long term investment. Investors should be aware that the price of Shares and the income from them may fall as well as rise and investors may not receive back the full amount invested. Past performance is not a guide to future performance. Investments denominated in currencies other than the base currency of a fund are subject to fluctuation in exchange rates, which may be favourable or unfavourable.
