ISIN code	GB00BQNKFK38
C class shares are available for WTL investors paying trust fees directly to WTL.	

WAY MA Cautious Portfolio

An OEIC managed by Brompton Asset Management

Fund manager's commentary

Global bonds and equities fell 1.90% and 1.28% respectively in sterling as the oil price rose 20.97% in response to renewed Middle East conflict, triggering fears that interest rates will rise to combat resurgent inflation. US stocks fell 1.44% in sterling but the WAY MA Cautious Portfolio's holding in the Xtrackers S&P 500 Equal Weight exchange-traded fund fell only 0.41% because of its low technology weighting during a month in which global technology stocks fell 5.77% on concerns that artificial intelligence datacentres may fail to deliver economic returns. Some hardware suppliers were caught in the sell-off and Polar Capital Global Technology fell 20.33%. Equities in Asia excluding Japan and emerging markets also underperformed, down 4.51% and 4.36% respectively in sterling. Within the portfolio, Baillie Gifford Pacific and Pacific North of South Global Emerging Markets Equity, which have high allocations to hardware suppliers, fell 9.63% and 7.76% respectively, but Redwheel Next Generation Emerging Markets Equity outperformed, up 1.79% because of its bias towards smaller emerging market economies that have lower weightings in technology. Indian stocks rose 0.38% in sterling and Chikara Indian Subcontinent, which has a bias towards domestic, consumer-oriented stocks, outperformed, up 2.32%. UK stocks also outperformed, up 3.86%, and smaller companies did better, up 5.79%. Within the portfolio, Artemis UK Special Situations gained 3.87%. Within the bond allocation, the sterling-hedged Pimco Global Low Duration Real Return (£-hedged) iShares \$ Treasury Bond 0-1 Year Xtrackers US Treasuries (£-hedged) Fidelity Index Global Government Bond Strategic Bond fell 1.55%. The WAY MA Cautious Portfolio fell 0.94% in July while the sector fell 0.40%.

BROMPTON

ASSET MANAGEMENT

Investment objective & policy

The objective of the Fund is to seek capital growth.

The Fund will seek to achieve its objective from an actively managed portfolio of collective investment schemes, investment trusts, other transferable securities including listed securities, cash or near cash, deposits and money market instruments. The Fund will typically invest between 20% and 60% of its portfolio in equity securities.

There will be no restrictions on the underlying content of the investments held, in terms of investment type, geographical or economic sector.

The use of derivatives and/or hedging transactions will be permitted in connection with the efficient portfolio management of the Fund (typically hedging, including investing in hedged share classes, which attempts to mitigate against falls in the value of the Fund's assets and the effects of changes in currency exchange rates against the Fund's base currency, which is pounds sterling). Borrowing of up to 10% of the Fund's net asset value will be permitted.

On giving 60 days notice to Shareholders, the Fund may, in addition to its other investment powers, use derivatives and forward transactions for investment purposes. It is not intended that the use of derivatives in this way will change the risk profile of the Fund.

Subject to the above, the Fund may invest in any asset class and adopt any investment technique or strategy permitted under the rules in COLL as such rules are applied to Non-UCITS retail schemes.

The Fund's benchmark is IA Mixed Investment 20-60% Shares. This represents a comparator benchmark because the Fund's performance can be compared to funds which also sit within this industry sector.

For further information including details of all share classes please visit our website at www.bromptonam.com
