C Income Shares

Launch date	1 November 2022
Launch price	100p
Price at 31 May 2026	135.88p
Minimum investment	£1,000
Investment management fee	0.65%
Total expense ratio	1.37%
SEDOL code	BQNKFK3
ISIN code	GB00BQNKFK38

C class shares are available for WTL investors paying trust fees directly to WTL.

WAY MA Cautious Portfolio

An OEIC managed by Brompton Asset Management

Fund manager's commentary

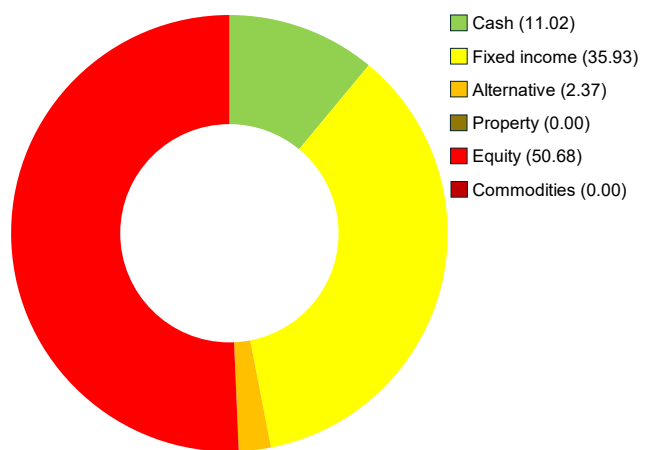

Global equities and bonds gained 6.06% and 1.15% respectively in sterling while the oil price fell 12.63% on hopes that the US and Iran would agree a ceasefire extension leading to a reopening of the Strait of Hormuz. Underlying price pressures remained, however, and US consumer sentiment weakened. US equities gained 6.11% in sterling supported by corporate earnings and optimism about artificial intelligence (AI) but the WAY MA Cautious Portfolio's holding in the Xtrackers S&P 500 Equal Weight exchange-traded fund (ETF) rose only 3.47% due to its relatively low technology weighting. The Polar Capital Global Technology holding was significantly increased because its holdings in semiconductor and other hardware companies are benefitting from AI capital spending. Equities in Asia excluding Japan and emerging markets, where the portfolio had an overweight allocation, gained 12.16% and 10.59% respectively in sterling, with returns driven by large South Korean and Taiwanese companies. Pacific North of South Global Emerging Markets Equity outperformed, up 12.97%, but Chikara Indian Subcontinent fell 0.33%. In the UK, where Labour's poor local election results may lead to a leadership challenge to the prime minister, equities returned only 0.95% but the portfolio's actively-managed investments outperformed, with Artemis UK Select strongest, rising 3.89%. In Europe excluding the UK, where equities also lagged, up only 4.55% in sterling, Jupiter European Select outperformed, rising 4.71%. The portfolio's bond investments were mostly relatively weak but Jupiter Dynamic Bond holding outperformed, rising 1.78%. The WAY MA Cautious Portfolio rose 2.60% in May while the sector rose 2.67%.

BROMPTON

ASSET MANAGEMENT

Investment objective & policy

The objective of the Fund is to seek capital growth.

The Fund will seek to achieve its objective from an actively managed portfolio of collective investment schemes, investment trusts, other transferable securities including listed securities, cash or near cash, deposits and money market instruments. The Fund will typically invest between 20% and 60% of its portfolio in equity securities.

There will be no restrictions on the underlying content of the investments held, in terms of investment type, geographical or economic sector.

The use of derivatives and/or hedging transactions will be permitted in connection with the efficient portfolio management of the Fund (typically hedging, including investing in hedged share classes, which attempts to mitigate against falls in the value of the Fund's assets and the effects of changes in currency exchange rates against the Fund's base currency, which is pounds sterling). Borrowing of up to 10% of the Fund's net asset value will be permitted.

On giving 60 days notice to Shareholders, the Fund may, in addition to its other investment powers, use derivatives and forward transactions for investment purposes. It is not intended that the use of derivatives in this way will change the risk profile of the Fund.

Subject to the above, the Fund may invest in any asset class and adopt any investment technique or strategy permitted under the rules in COLL as such rules are applied to Non-UCITS retail schemes.

The Fund's benchmark is IA Mixed Investment 20-60% Shares. This represents a comparator benchmark because the Fund's performance can be compared to funds which also sit within this industry sector.
