Fund manager's commentary

Currency movements contributed to gains for global equities and bonds of 2.88% and 0.22% respectively in sterling as the pound fell 1.81% against the dollar. The pound weakened as inflation fell in March for the second consecutive month and figures showed a first-quarter economic growth slowdown. Investors concluded an early Bank of England base rate rise was less likely although weather-related economic weakness may prove transitory. UK equities outperformed, rising 6.77%. The WAY Global Cautious Portfolio's UK equity fund allocation increased through additions to the Schroder Recovery holding. Aberforth UK Smaller Companies was the portfolio's best performer, rising 7.36% while UK smaller companies rose 5.73%. Equities in Europe excluding the UK also outperformed, rising 4.11% in sterling, but Threadneedle European Smaller Companies lagged, gaining 2.67%. Oil prices rose 7.78% in sterling as Middle East political risks increased following US military intervention in Syria and growing expectations that President Trump would not endorse the Iran nuclear accord. Sterling hedging helped GLG Japan CoreAlpha, which rose 6.05%, outperforming the 2.50% gain for Japanese equities in sterling. Within the portfolio's bond allocation, sterling hedging contributed, however, to falls for Legal & General Global Inflation Linked Bond and Legg Mason Western Asset Macro Opportunities Bond of 0.10% and 2.20% respectively. Man GLG Global Emerging Markets Debt outperformed, however, rising 0.85%. Within the alternative allocation, Man GLG European Mid-Cap Equity Alternative, a daily-traded long/short equity fund, was added. The WAY Global Cautious Portfolio rose 1.12%† in April while the sector rose 1.24%. Financial data source: Thomson Reuters 30 April 2018. † E Inc shares

Investment objective & policy

The objective of the company is total investment return against the IA Mixed Investment 0-35% Shares Index through conservative investment in a diversified portfolio of collective investment schemes, investment trusts, other listed securities, cash or near cash, deposits and money market instruments over a three-year rolling period. Capital invested in the company is at risk and there is no guarantee that the investment objective will be met over the three-year rolling period or in respect of any other period.

Subject to the requirements of the regulations, the portfolio will normally remain fully invested. There will, however, be no restrictions on the underlying content of the investments held, in terms of investment type, geographical or economic sector, other than those imposed by the regulations, meaning that the investment adviser has the absolute discretion to weight the portfolio towards any investment type or sector, including cash, at any time. Unregulated collective investment schemes may be used up to the full extent permitted by the regulations. The portfolio will be actively managed. Derivatives will not be used. Currency hedging transactions may be used where appropriate, and borrowing will be permitted on a temporary basis under the terms of the regulations.
