Fund manager's commentary

Global bonds fell 3.74% in sterling as the pound rose 5.12% against the dollar. The impact of President Trump's fiscal stimulus on an already strong US economy may bring forward future interest rate rises. UK bond yields rose as UK government bonds and corporate bonds fell 2.05% and 0.66% respectively. The WAY Global Cautious Portfolio's UK bond fund holdings outperformed, however, benefitting from their short duration. Schroder Strategic Credit did best, returning 0.19%. Global equities rose 0.51% in sterling while US equities marginally outperformed, 0.57%. Financial stocks, which tend to benefit from rising interest rates, did better, with the iShares S&P 500 Financials Sector exchange-traded fund rising 1.26%. Emerging market equities outperformed, with dollar weakness fuelling a 3.06% rise in sterling but Goldman Sachs Emerging Markets Equity lagged, returning 1.75%. The stronger pound proved a headwind for UK equities, which underperformed, falling 1.98%. The portfolio's holdings were relatively strong, however, with Schroder Recovery, which has a "value" approach to investing, gaining 1.21%. Value managers may continue to outperform as inflation and interest rates rise. The portfolio's alternative holdings were mixed, with Man GLG UK Absolute Value doing best, up 1.29%. Equities in Europe ex-UK outperformed, rising 1.14% in sterling as the European Central Bank maintained its ultra-loose monetary policy although its president, Mario Draghi, highlighted the eurozone's improving prospects. Threadneedle European Smaller Companies and Schroder European outperformed, rising 2.24% and 2.21% respectively. The WAY Global Cautious Portfolio gained 0.01%† in January while the sector fell 0.29%. Financial data source: Thomson Reuters 31 January 2018. † E Inc shares

Investment objective & policy

The objective of the company is total investment return against the IA Mixed Investment 0-35% Shares Index through conservative investment in a diversified portfolio of collective investment schemes, investment trusts, other listed securities, cash or near cash, deposits and money market instruments over a three-year rolling period. Capital invested in the company is at risk and there is no guarantee that the investment objective will be met over the three-year rolling period or in respect of any other period.

Subject to the requirements of the regulations, the portfolio will normally remain fully invested. There will, however, be no restrictions on the underlying content of the investments held, in terms of investment type, geographical or economic sector, other than those imposed by the regulations, meaning that the investment adviser has the absolute discretion to weight the portfolio towards any investment type or sector, including cash, at any time. Unregulated collective investment schemes may be used up to the full extent permitted by the regulations. The portfolio will be actively managed. Derivatives will not be used. Currency hedging transactions may be used where appropriate, and borrowing will be permitted on a temporary basis under the terms of the regulations.
