### Fund manager's commentary

President Trump announced tariffs on a further \$200 billion of Chinese exports although further negotiations will precede implementation later this year. Beijing threatened retaliation. The yuan fell 2.32% against sterling, improving China's export competitiveness. Global equity markets rose 3.72% in sterling terms and US equities outperformed, gaining 4.39% in sterling as the dollar rose 0.65% against the pound. The WAY Global Cautious Portfolio benefited from purchases of the iShares \$ Treasury Bond 1-3 Years exchange-traded fund and Fidelity Index US in early July. The increase in dollar-denominated assets within the portfolio may prove defensive if Brexit negotiations lead to a poor outcome for Britain's economy. UK equities lagged, rising 1.53%, and all of the portfolio's holdings underperformed, with Aberforth UK Small Companies doing worst, down 0.87%. Fears about protectionism proved a headwind for Tokyo stocks, which also lagged, rising only 0.89% in sterling. Lindsell Train Japanese Equity underperformed its benchmark, falling 2.61%. In bond markets, the pound's weakness fuelled the 0.48% rise in global bonds in sterling but UK government bonds fell 0.34% as investors anticipated August's bank rate rise. The UK bond holdings performed well, with Schroder Strategic Credit gaining 1.09%, but the global bond returns were mixed. Legg Mason Western Asset Macro Opportunities returned 1.46% but Man GLG Global Emerging Markets Debt fell 0.94%. Among the alternative holdings, Trojan did best, rising 1.15%, but Man GLG European Mid-Cap Equity Alternative fell 2.05%. The WAY Global Cautious Portfolio gained 0.78%† in July while the sector gained 0.64%.

## WAY Global Cautious Portfolio (continued)

An OEIC managed by  
Brompton Asset Management

### Investment objective & policy

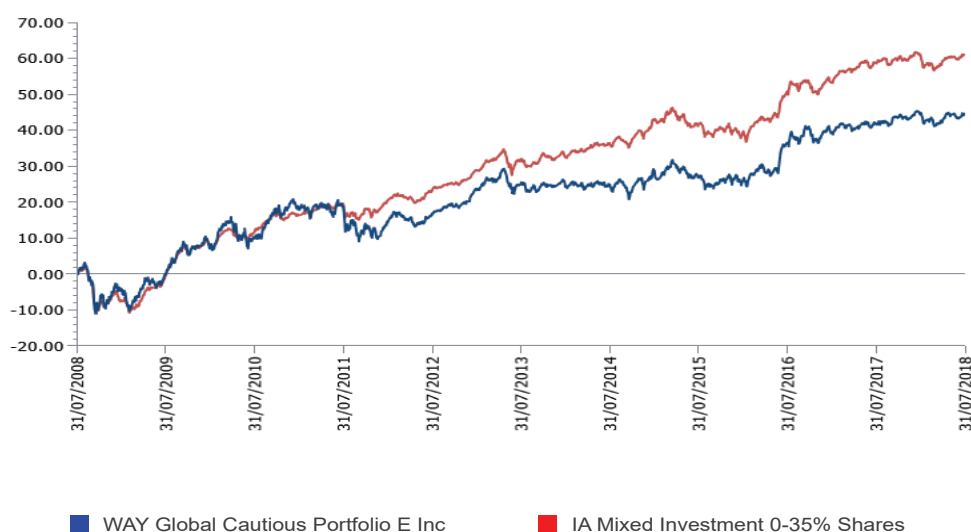

The objective of the company is total investment return against the IA Mixed Investment 0-35% Shares Index through conservative investment in a diversified portfolio of collective investment schemes, investment trusts, other listed securities, cash or near cash, deposits and money market instruments over a three-year rolling period. Capital invested in the company is at risk and there is no guarantee that the investment objective will be met over the three-year rolling period or in respect of any other period.

Subject to the requirements of the regulations, the portfolio will normally remain fully invested. There will, however, be no restrictions on the underlying content of the investments held, in terms of investment type, geographical or economic sector, other than those imposed by the regulations, meaning that the investment adviser has the absolute discretion to weight the portfolio towards any investment type or sector, including cash, at any time. Unregulated collective investment schemes may be used up to the full extent permitted by the regulations. The portfolio will be actively managed. Derivatives will not be used. Currency hedging transactions may be used where appropriate, and borrowing will be permitted on a temporary basis under the terms of the regulations.
