WAY Global Cautious Portfolio

An OEIC managed by
Brompton Asset Management

Fund manager's commentary

Jerome Powell, the Federal Reserve chairman, turned dovish, pronouncing interest rates "just below" neutral against previous guidance describing them "a long way" from neutral. Global equities rose 1.66% in sterling. Fundsmith Equity, the WAY Global Cautious Portfolio's second largest equity investment, outperformed thanks to its quality growth stock focus, rising 3.30%. US stocks rose 2.19% in sterling while equities in Asia excluding Japan and emerging markets did even better as investors anticipated advances in US-Sino trade talks, rising 5.47% and 4.28% respectively in sterling. Fears about oversupply, however, pushed oil prices down 21.96% in sterling, a fall that benefited oil-importing economies. An investment was made in Blackrock Asian Growth Leaders, initiating the portfolio's Asia ex-Japan equity allocation. The Bank of England's assumption of a bank rate rise to 5.5% if there were no Brexit deal contributed to weakness for sterling bonds, with UK government bonds and sterling corporate bonds falling 1.28% and 1.73% respectively. The fund benefited from its low bond allocation while the iShares \$ Treasury Bond 1-3 Years exchange-traded fund and the dollar-hedged Vanguard Global Short-Term Bond holding made gains, returning 0.51% and 0.39% respectively. UK equities fell 1.51% but Liontrust UK Special Situations rose 0.20% against the trend. Among the portfolio's daily-traded long/short equity investments, the sterling-hedged Artemis US Absolute Return holding and Man GLG UK Absolute Value did best, rising 0.85% and 0.35% respectively, but Man GLG European Mid-Cap Equity Alternative fell 0.89%. The WAY Global Cautious Portfolio rose 0.32%† in November while the sector fell 0.32%.

Investment objective & policy

The objective of the company is total investment return against the IA Mixed Investment 0-35% Shares Index through conservative investment in a diversified portfolio of collective investment schemes, investment trusts, other listed securities, cash or near cash, deposits and money market instruments over a three-year rolling period. Capital invested in the company is at risk and there is no guarantee that the investment objective will be met over the three-year rolling period or in respect of any other period.

Subject to the requirements of the regulations, the portfolio will normally remain fully invested. There will, however, be no restrictions on the underlying content of the investments held, in terms of investment type, geographical or economic sector, other than those imposed by the regulations, meaning that the investment adviser has the absolute discretion to weight the portfolio towards any investment type or sector, including cash, at any time. Unregulated collective investment schemes may be used up to the full extent permitted by the regulations. The portfolio will be actively managed. Derivatives will not be used. Currency hedging transactions may be used where appropriate, and borrowing will be permitted on a temporary basis under the terms of the regulations.
