Fund manager's commentary

Global equities fell 6.84% in sterling. Optimism regarding Sino-US trade tensions evaporated when talks proved inconclusive. The Federal Reserve, impervious to presidential criticism, responded to strong jobs data, raising interest rates to 2.25-2.5%. Safe-haven assets were in demand. Gold and global bonds gained 4.91% and 2.21% respectively in sterling while the dollar rose 0.18% and the stronger yen led to a 3.68% rise from the WAY Global Cautious Portfolio's holding in Goldman Sachs Yen Liquid Reserves. Theresa May's deferral of a Commons vote on Brexit contributed to gains for UK government and sterling corporate bonds of 2.38% and 1.11% respectively. M&G UK Inflation Linked Corporate Bond and Schroder Strategic Credit, however, fell 0.22% and 0.66% respectively as short duration bonds lagged. UK equities, down 3.61%, were relatively resilient, with sterling's weakness increasing companies' competitiveness. UK smaller companies underperformed, however, with their 5.83% fall reflecting their reliance on domestic demand, and Aberforth UK Small Companies did worse, down 6.92%. Equities in emerging markets and Asia excluding Japan were also relatively resilient, falling 2.42% and 2.48% respectively in sterling, but Blackrock Asian Growth Leaders lagged, down 2.51%. In Europe excluding the UK, where equities fell 4.74% in sterling, Schroder European underperformed, falling 7.13%. In Japan, where equities fell 6.90% in sterling, Lindsell Train Japanese Equity, the portfolio's worst performer, fell 7.64%. The daily-traded long/short equity funds posted gains, with Man GLG UK Absolute Value doing best, up 1.06%. The WAY Global Cautious Portfolio fell 1.56%† in December while the sector fell 1.09%. Financial data source: Thomson Reuters 31 December 2018. † E Acc shares

Investment objective & policy

The objective of the company is total investment return against the IA Mixed Investment 0-35% Shares Index through conservative investment in a diversified portfolio of collective investment schemes, investment trusts, other listed securities, cash or near cash, deposits and money market instruments over a three-year rolling period. Capital invested in the company is at risk and there is no guarantee that the investment objective will be met over the three-year rolling period or in respect of any other period.

Subject to the requirements of the regulations, the portfolio will normally remain fully invested. There will, however, be no restrictions on the underlying content of the investments held, in terms of investment type, geographical or economic sector, other than those imposed by the regulations, meaning that the investment adviser has the absolute discretion to weight the portfolio towards any investment type or sector, including cash, at any time. Unregulated collective investment schemes may be used up to the full extent permitted by the regulations. The portfolio will be actively managed. Derivatives will not be used. Currency hedging transactions may be used where appropriate, and borrowing will be permitted on a temporary basis under the terms of the regulations.
