WAY Global Red Active Portfolio

A unit trust managed by
Brompton Asset Management

Fund manager's commentary

Currency movements contributed to gains for global equities and bonds of 2.88% and 0.22% respectively in sterling as the pound fell 1.81% against the dollar. The pound weakened as UK headline inflation fell in March for the second consecutive month and figures showed a slowdown in first-quarter economic growth. Investors concluded an early Bank of England base rate rise was less likely although weather-related weakness in economic data may prove transitory. UK equities outperformed, rising 6.77%. The WAY Global Red Active Portfolio's UK equity fund allocation increased through an addition to the Schroder Recovery holding. Aberforth UK Smaller Companies was the best performer, rising 7.36% while UK smaller companies rose 5.73%. Oil prices rose 7.78% in sterling as Middle East political risks increased following US military intervention in Syria and growing expectations that President Trump would not endorse the Iran nuclear accord. Goldman Sachs India Equity gained 6.51%, outperforming the 6.04% rise in sterling for Indian equities, which shrugged off the impact of higher oil prices. Sterling hedging helped GLG Japan CoreAlpha, which returned 6.05%, outperforming the 2.50% gain for Japanese equities in sterling terms. Sterling hedging, however, negatively affected Legg Mason Western Asset Macro Opportunities Bond, the portfolio's worst performer, down 2.20%. Portfolio changes included the addition of Man GLG European Mid-Cap Equity Alternative, a daily-traded long/short equity fund, and a reduction in Fidelity Germany, which could be vulnerable to increasing protectionism. The WAY Global Red Active Portfolio rose 2.97%† in April while the sector rose 2.92%.

BROMPTON
ASSET MANAGEMENT

Investment objective & policy

The objective of the fund is to provide maximum capital growth from an actively-managed and diversified portfolio of collective investment schemes selected from markets worldwide. The assets of the fund will be managed in such a way that the units in the fund will be qualifying investments for Individual Savings Accounts. The use of derivatives is not permitted but borrowing will be permitted on a temporary basis under the terms of the regulations. Although the fund will normally remain fully invested, the property of the fund may consist of up to 10% cash or near cash where this may be reasonably regarded as necessary in order to enable the pursuit of the fund's objective, the redemption of units and the efficient management of the fund in accordance with its objectives or other purposes which may be reasonably regarded as ancillary to the objectives of the fund.
